

Value

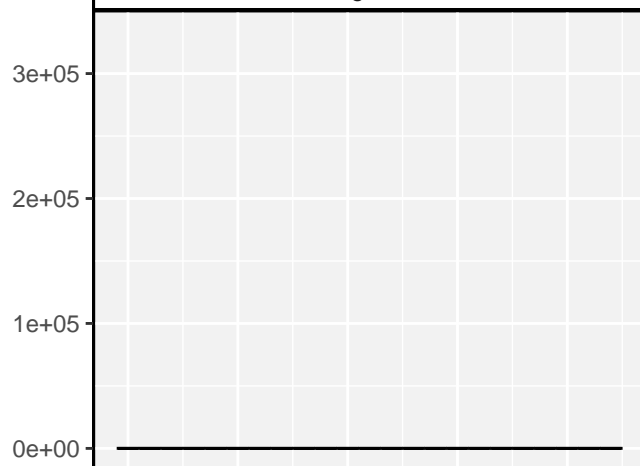

Age-specific mortality rate per 100,000 population

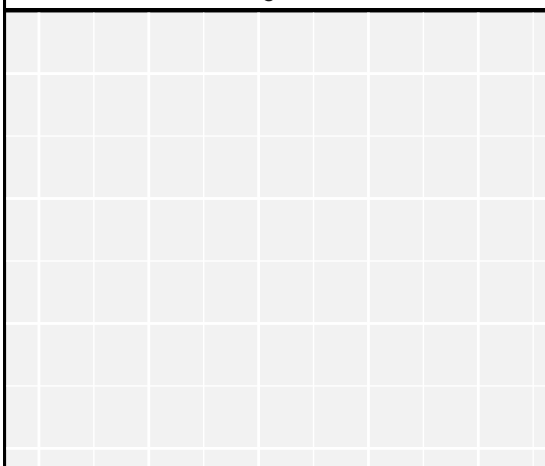

Number of deaths

Percentage of deaths

Rank of leading causes of death

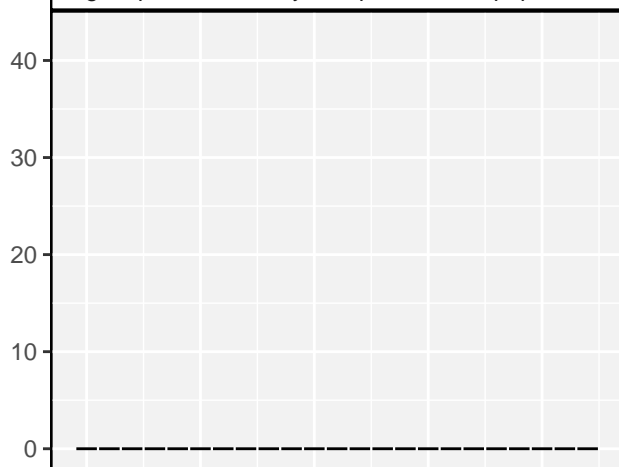

Measurement

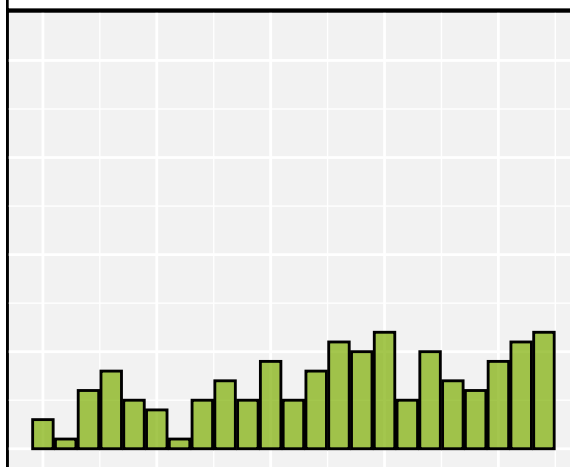

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

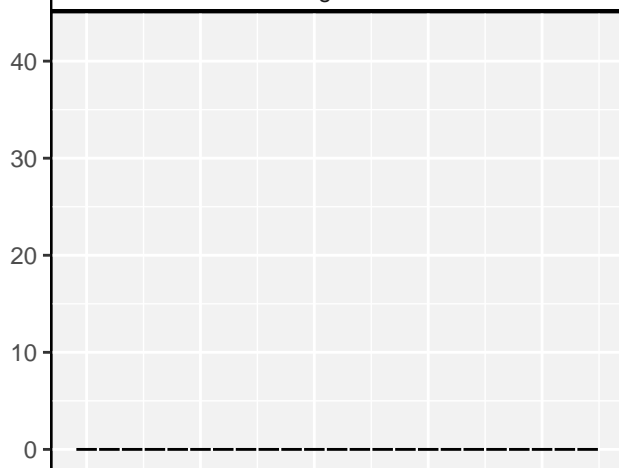

Age-specific mortality rate per 100,000 population

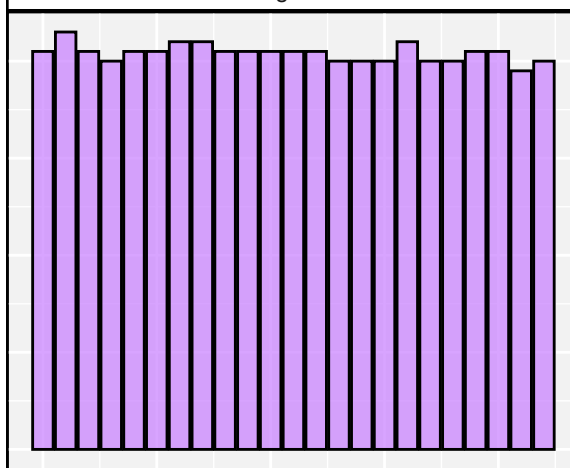

Number of deaths

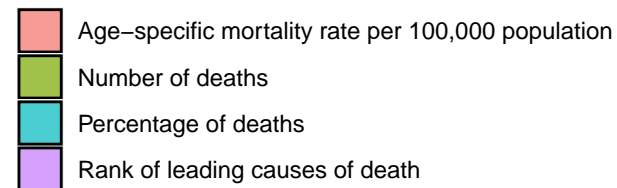

Percentage of deaths

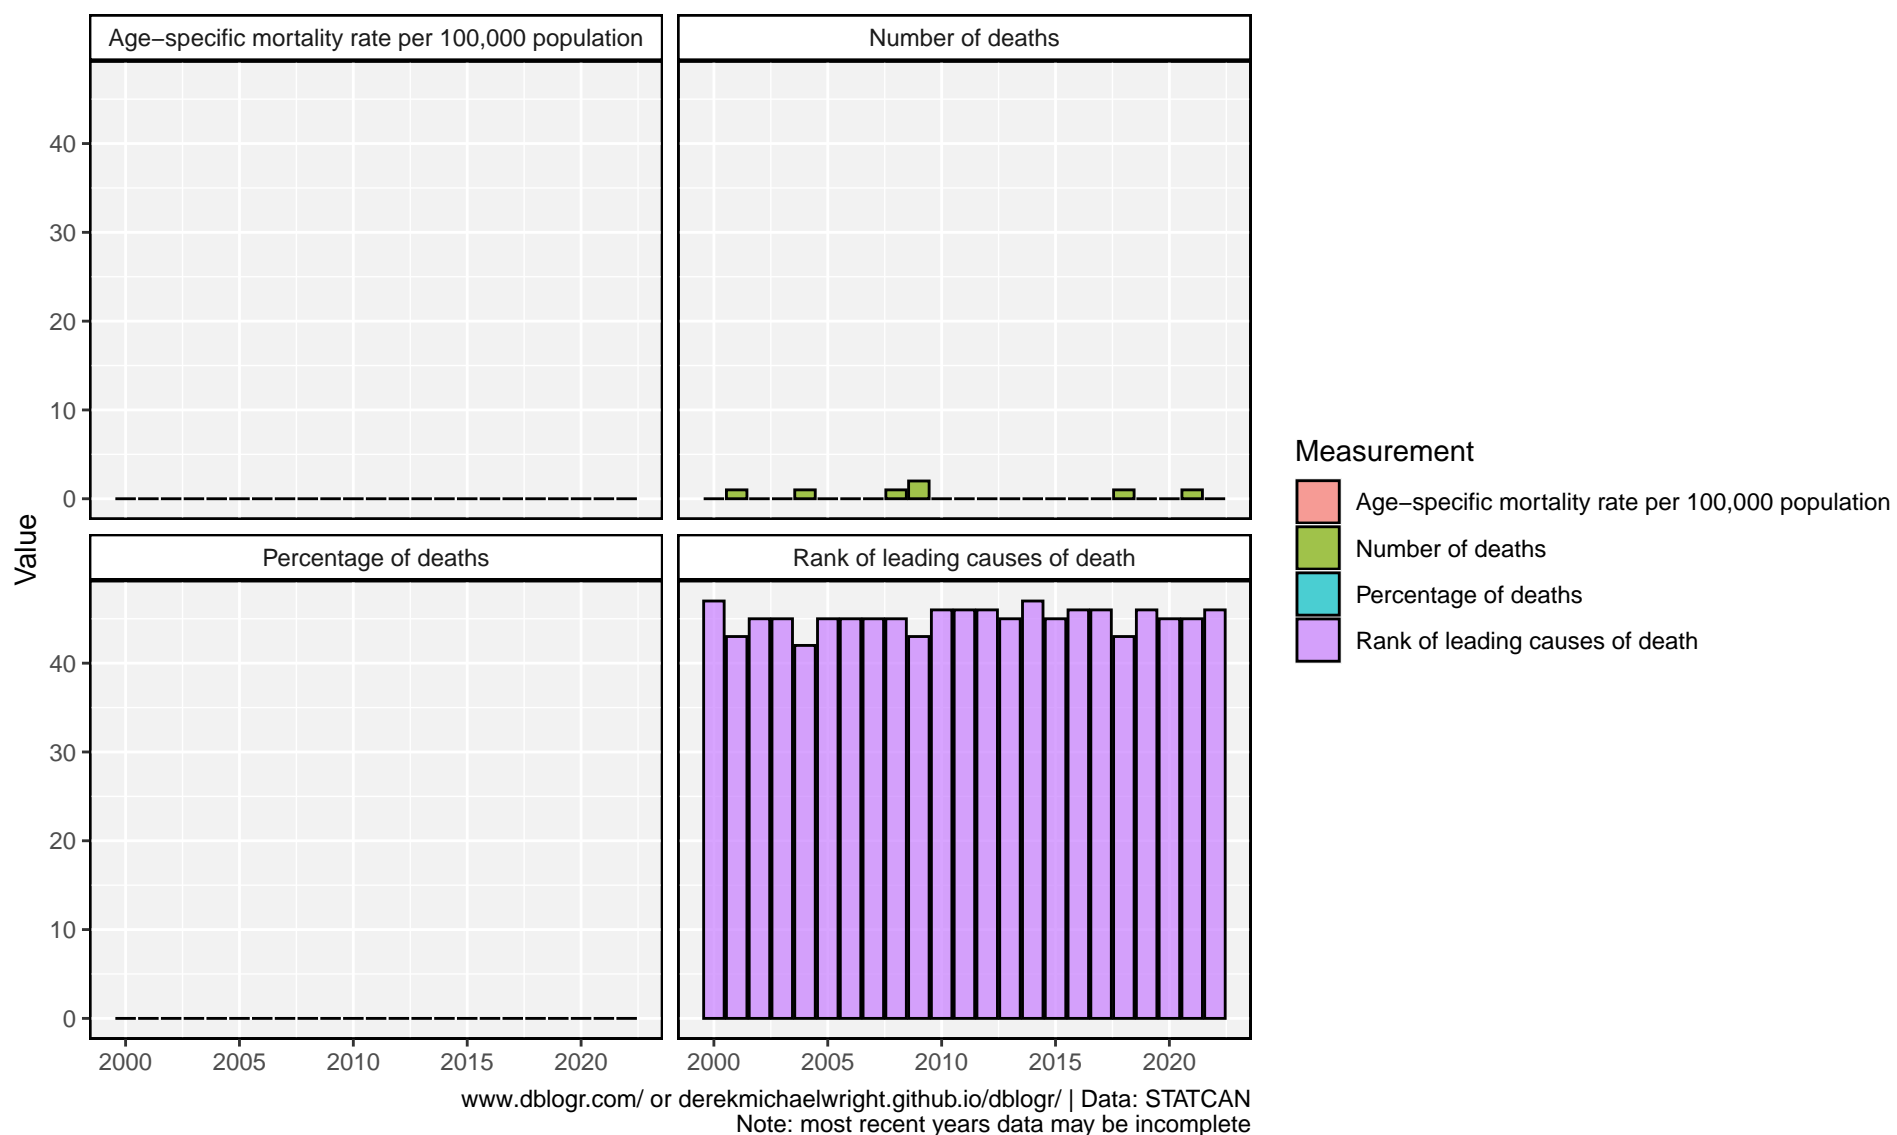

Rank of leading causes of death

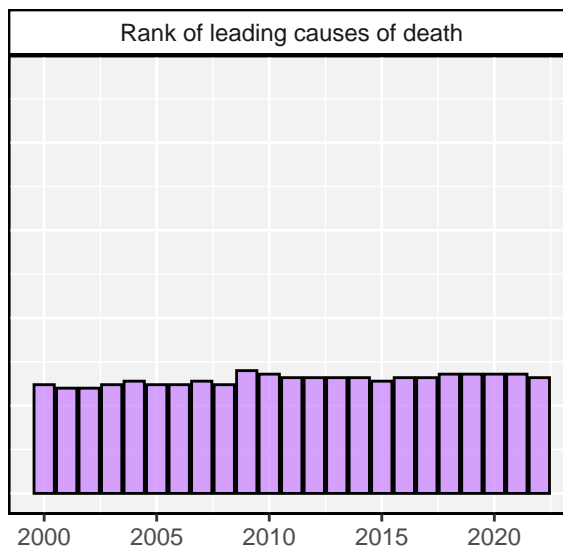

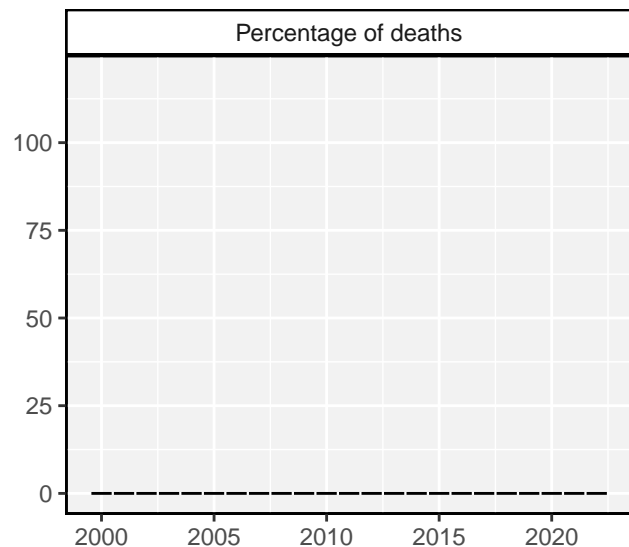

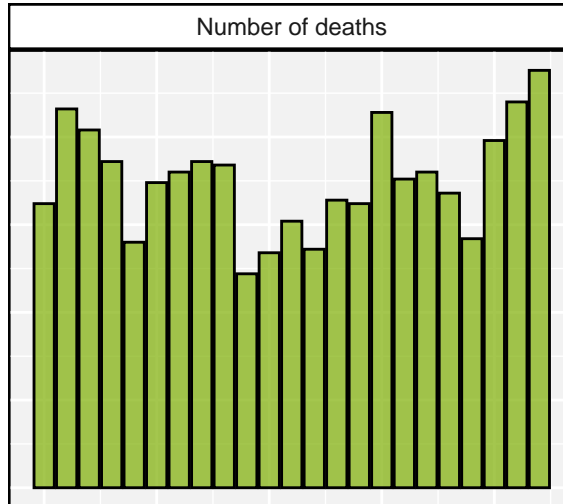

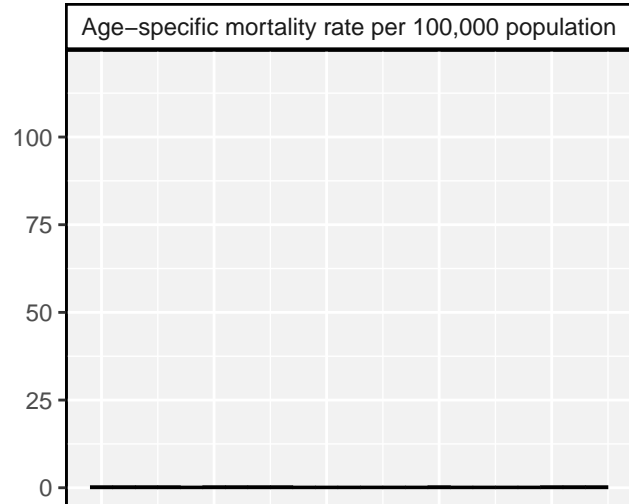

Measurement

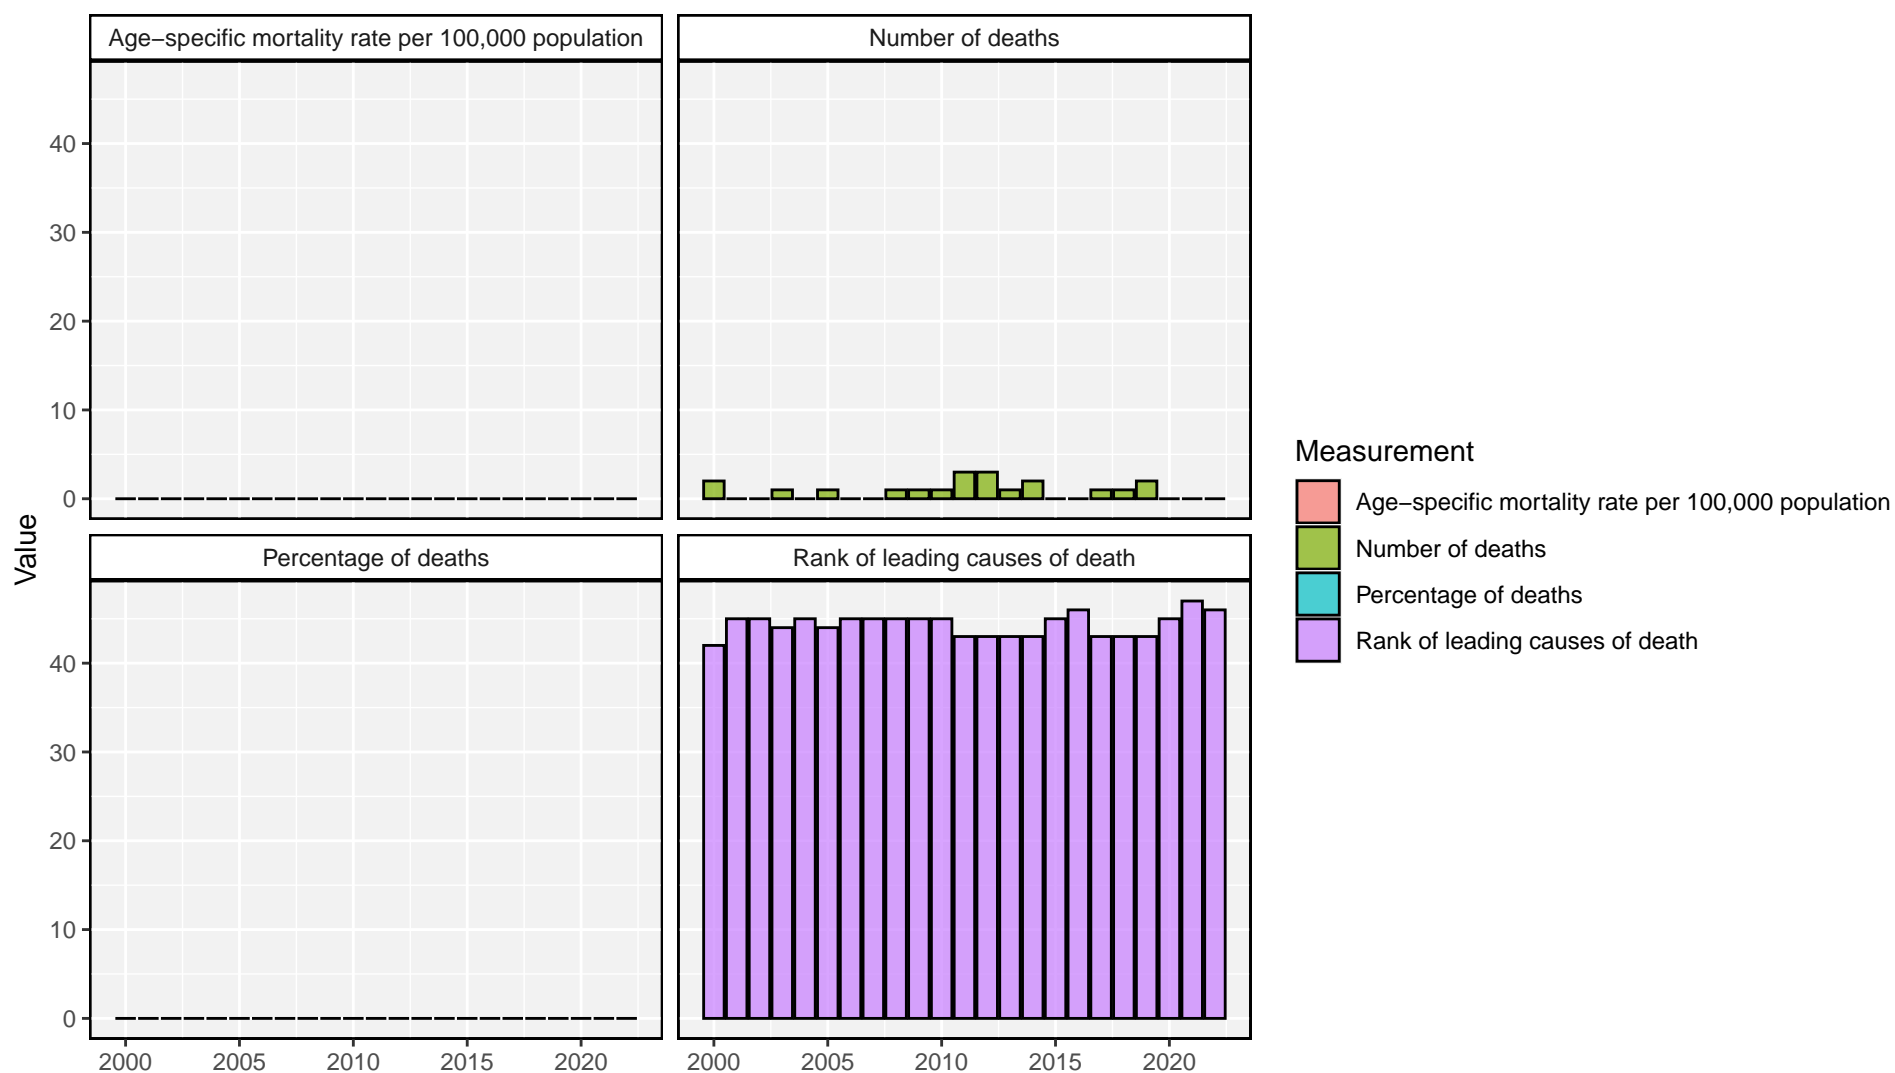

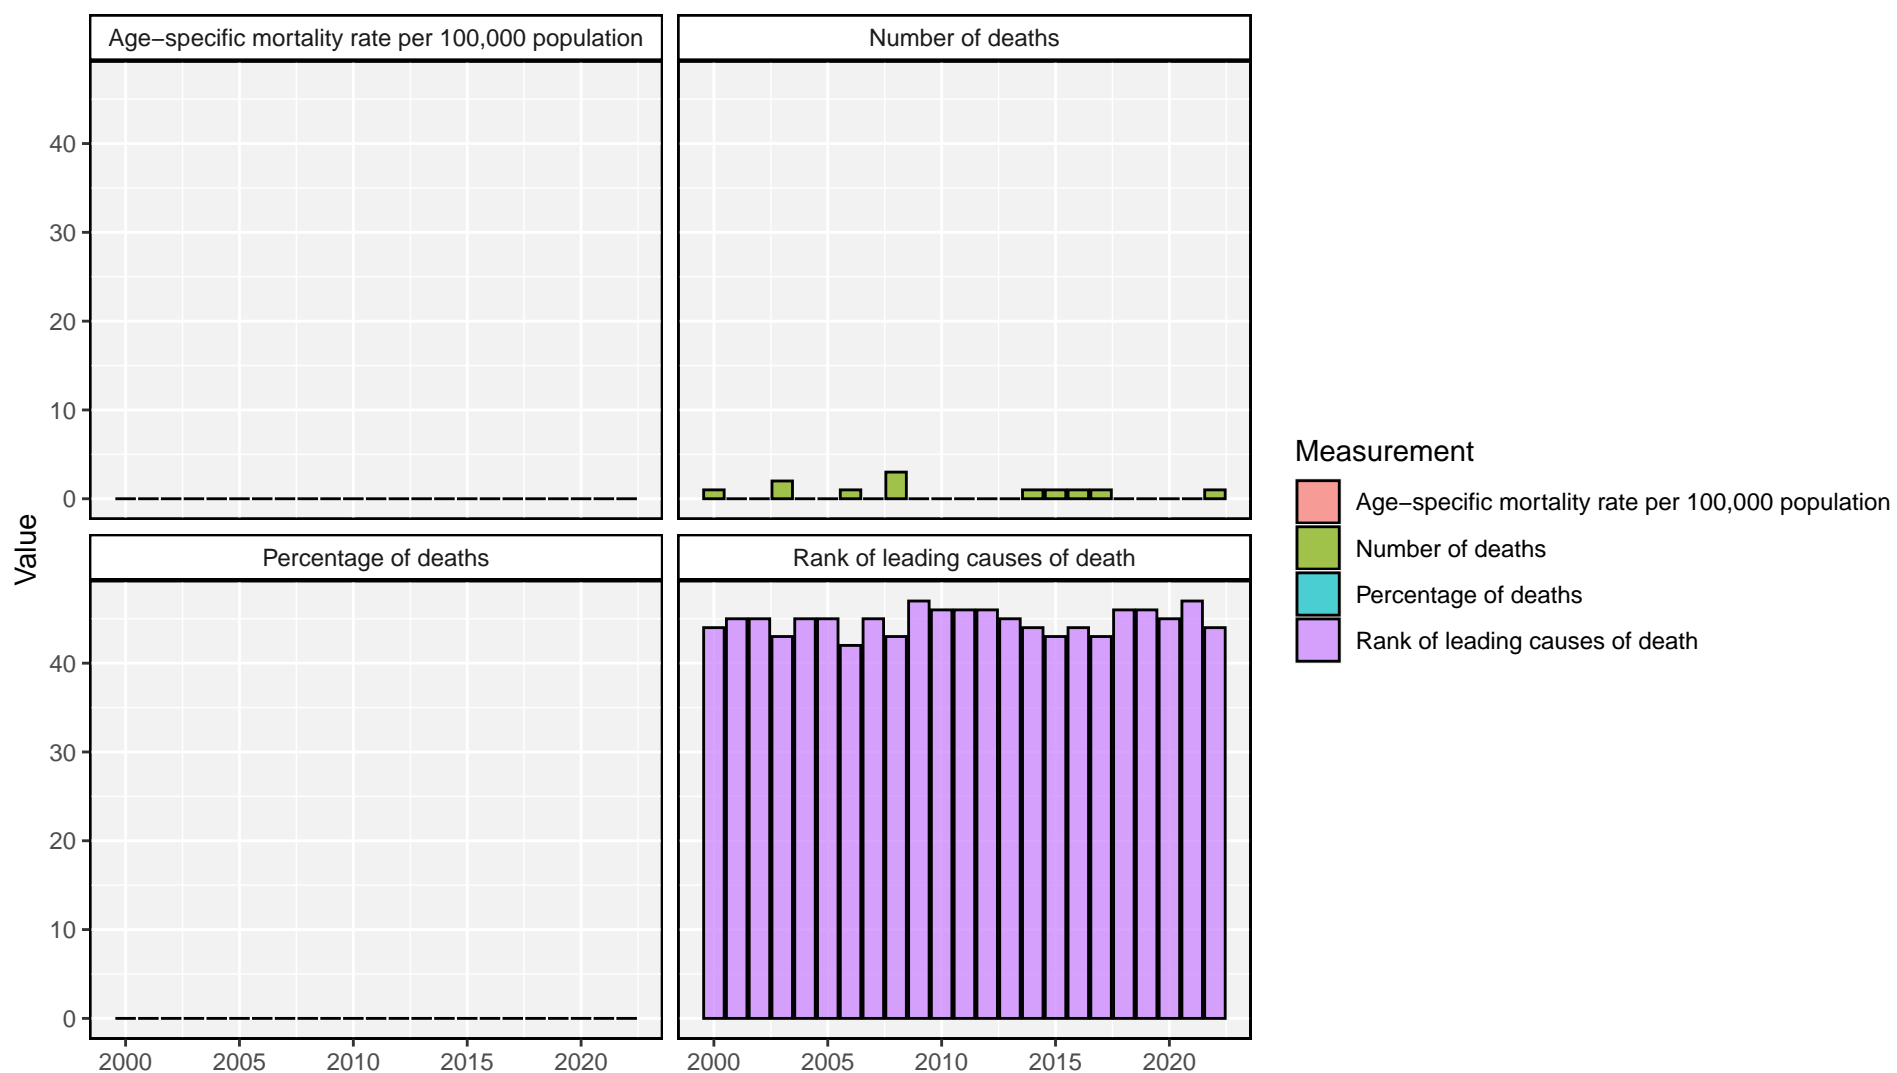

Value

Measurement

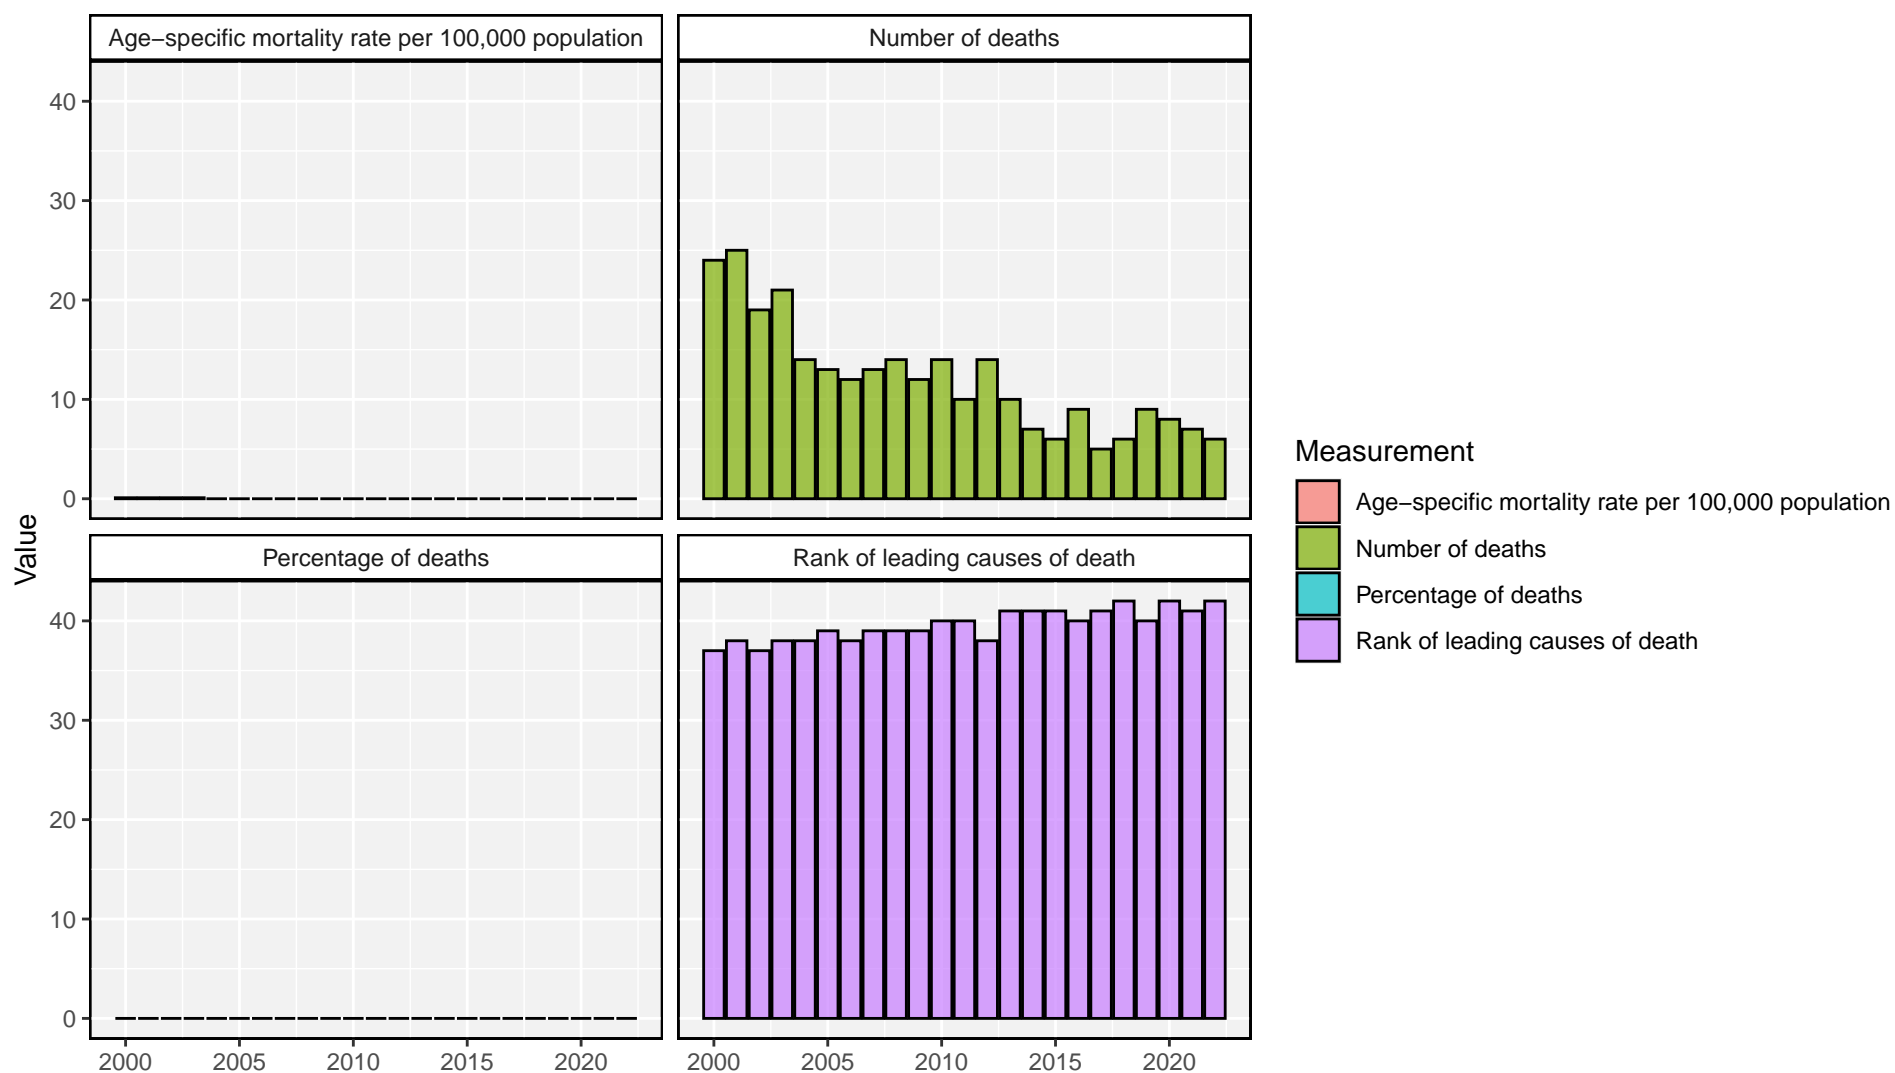

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Measurement

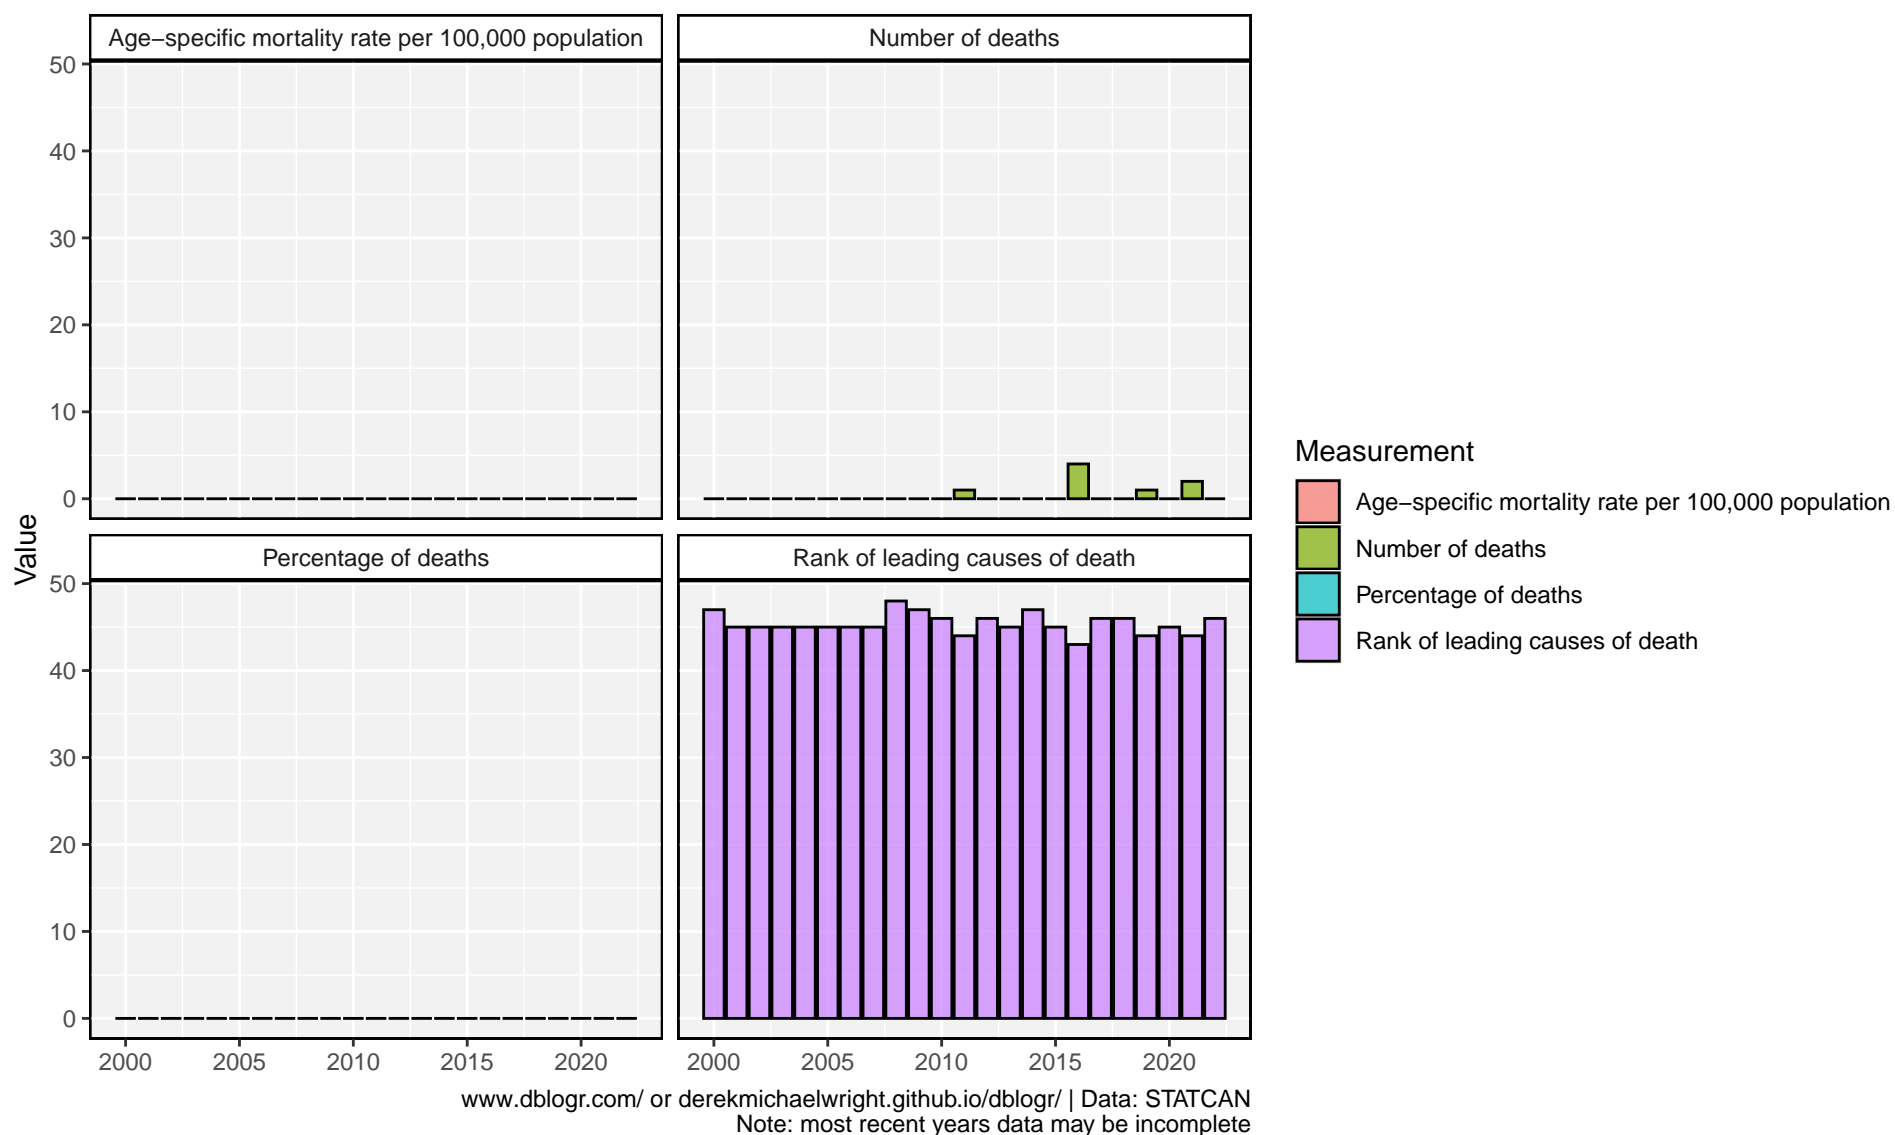

-  Age-specific mortality rate per 100,000 population
-  Number of deaths
-  Percentage of deaths
-  Rank of leading causes of death

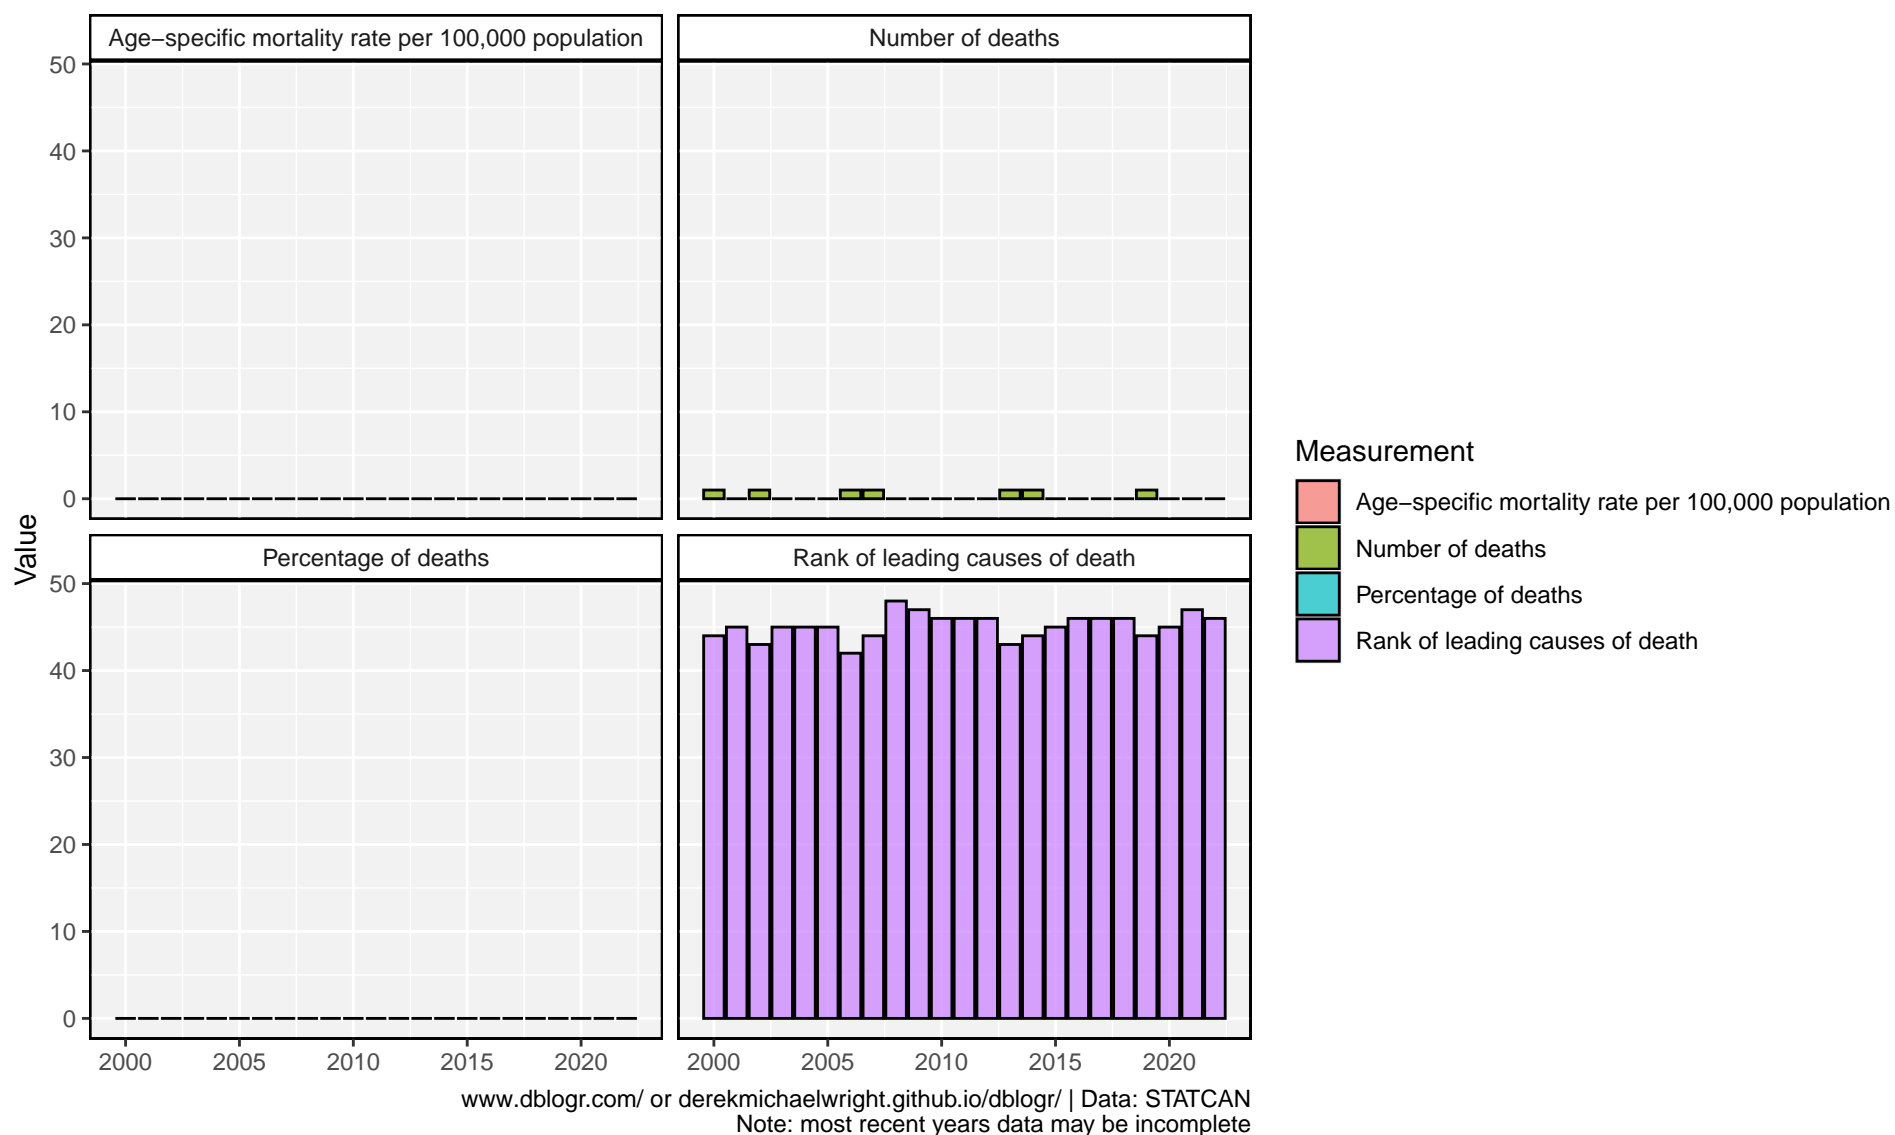

Measurement

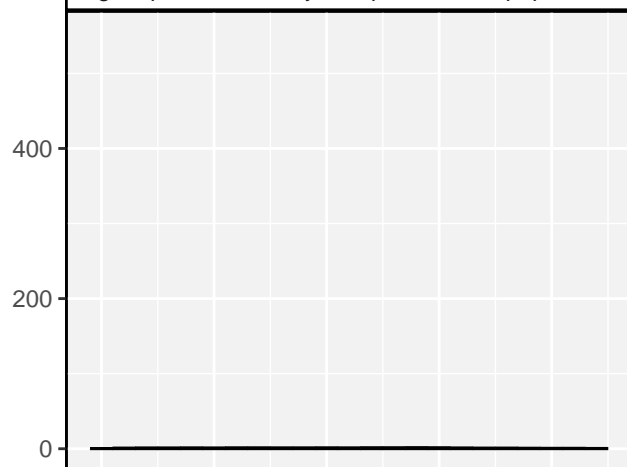

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

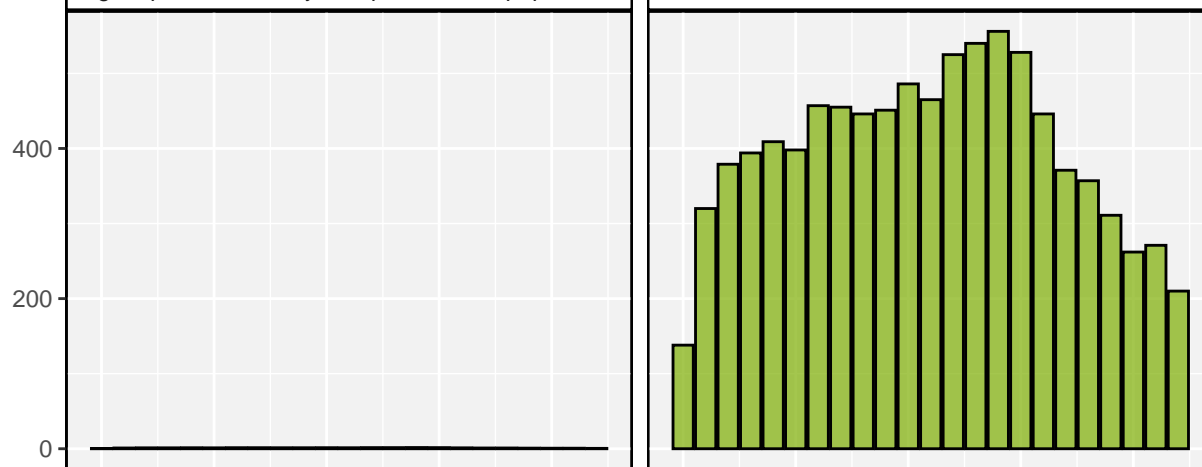

Value

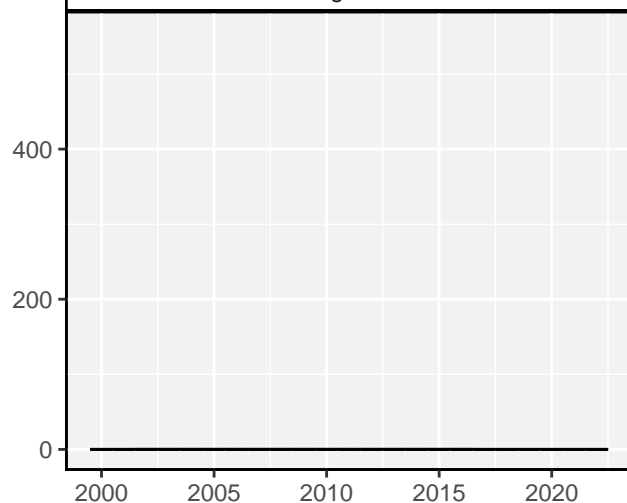

Age-specific mortality rate per 100,000 population

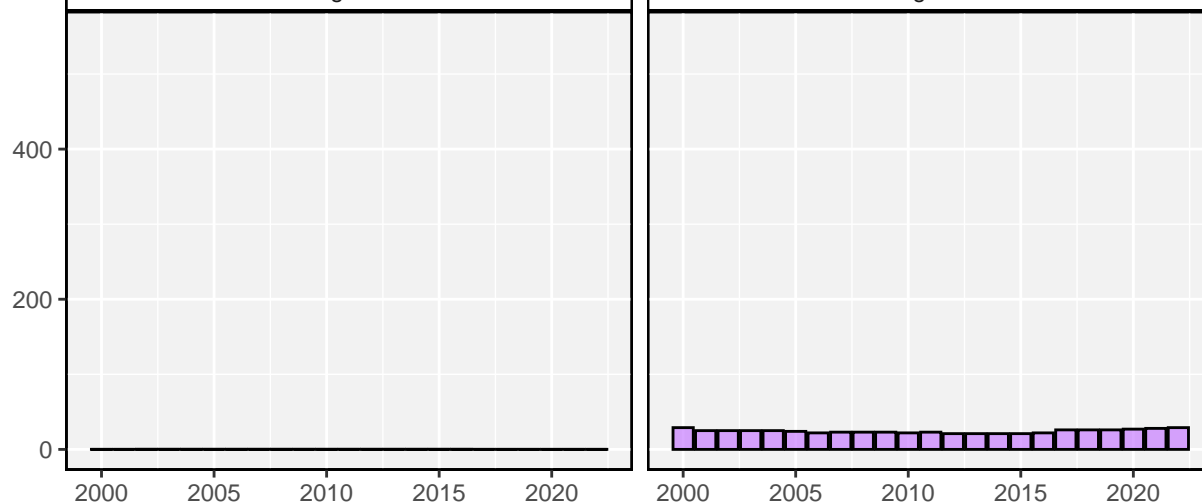

Number of deaths

Percentage of deaths

Rank of leading causes of death

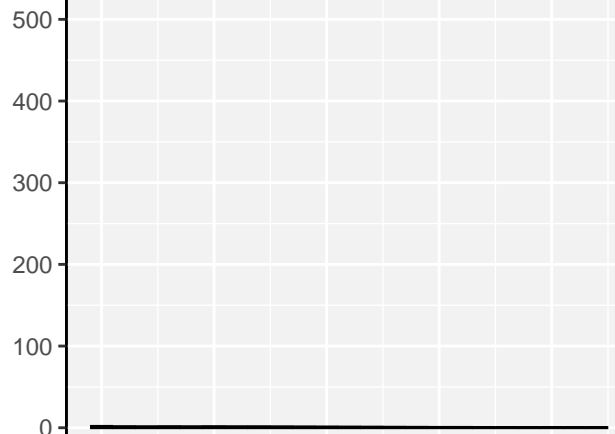

Measurement

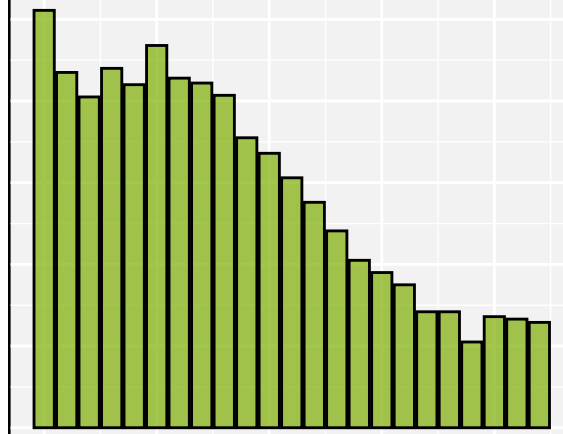

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

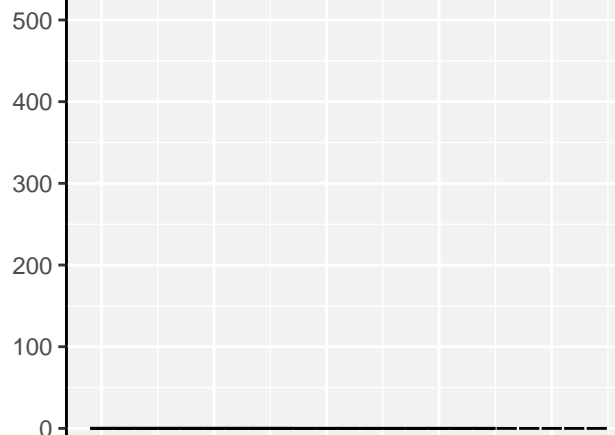

Age-specific mortality rate per 100,000 population

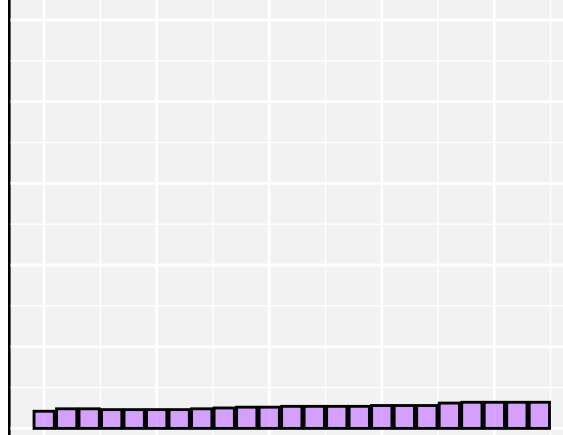

Number of deaths

Percentage of deaths

Rank of leading causes of death

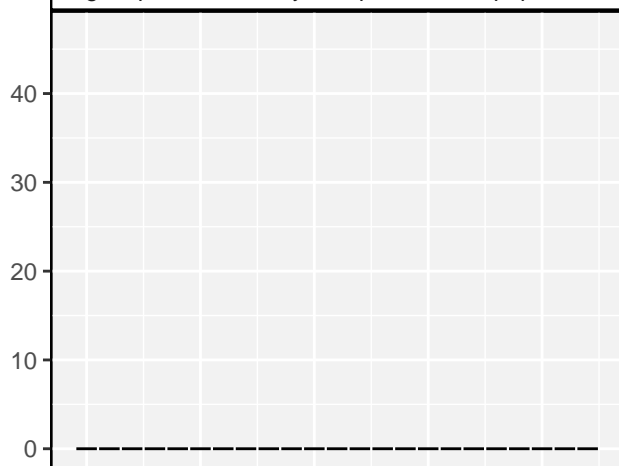

Measurement

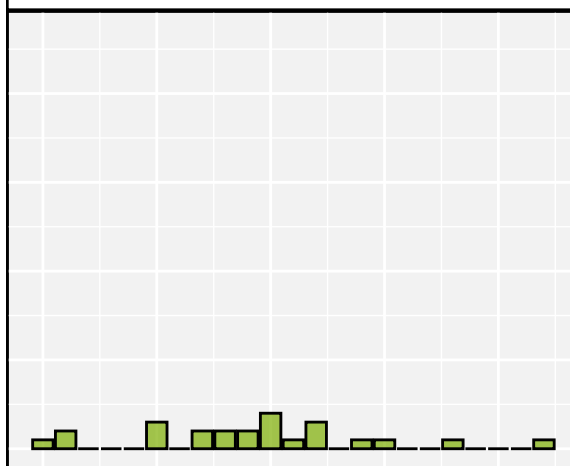

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

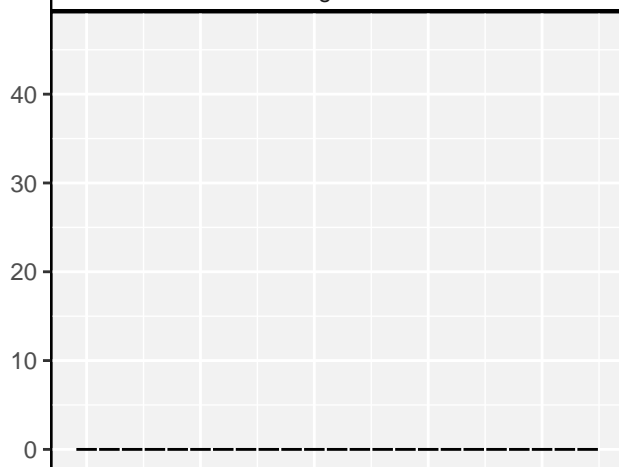

Age-specific mortality rate per 100,000 population

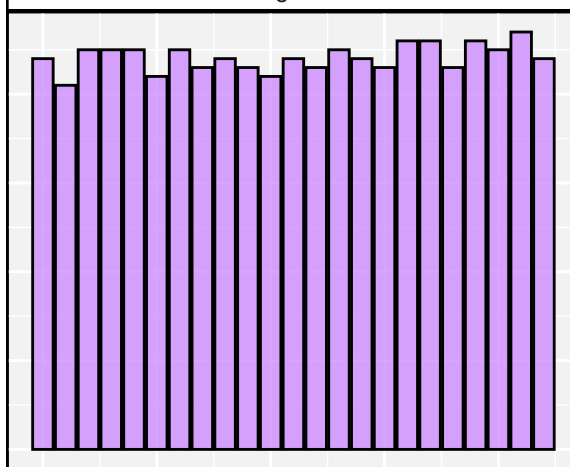

Number of deaths

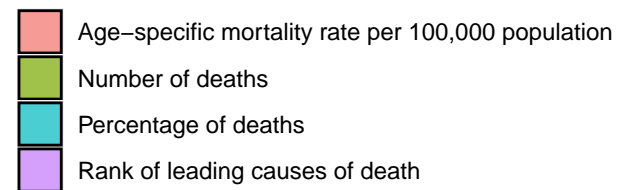

Percentage of deaths

Rank of leading causes of death

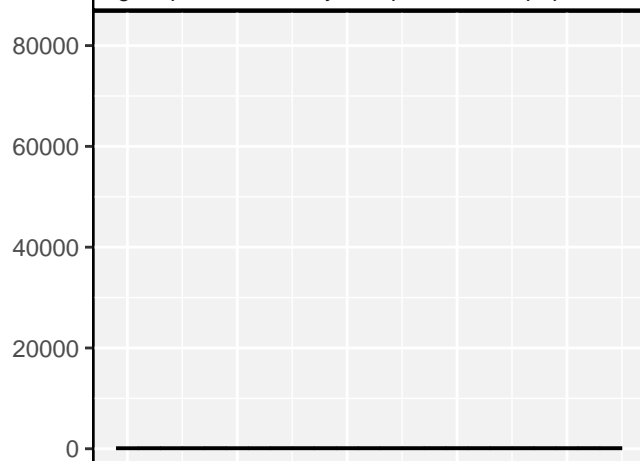

Measurement

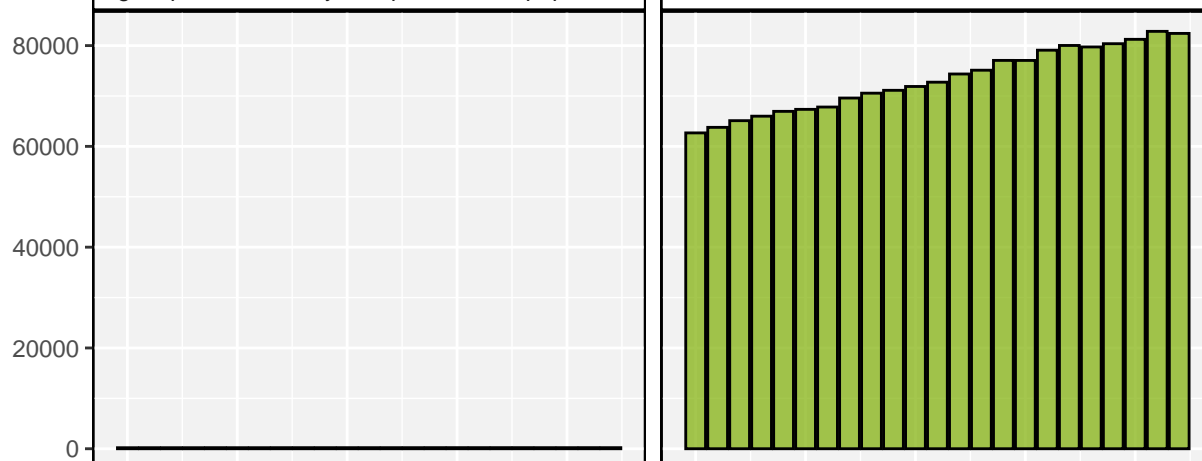

Value

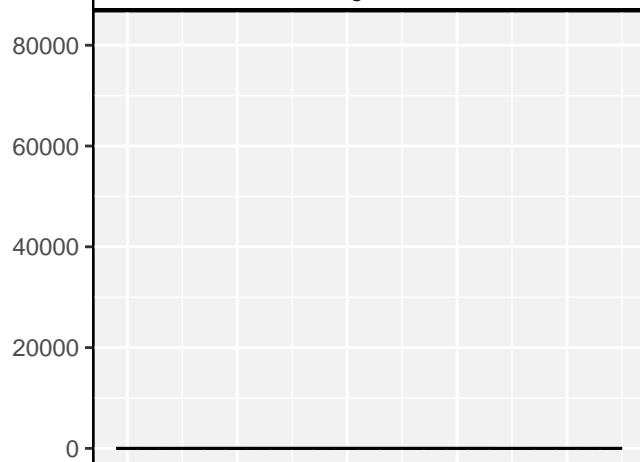

Age-specific mortality rate per 100,000 population

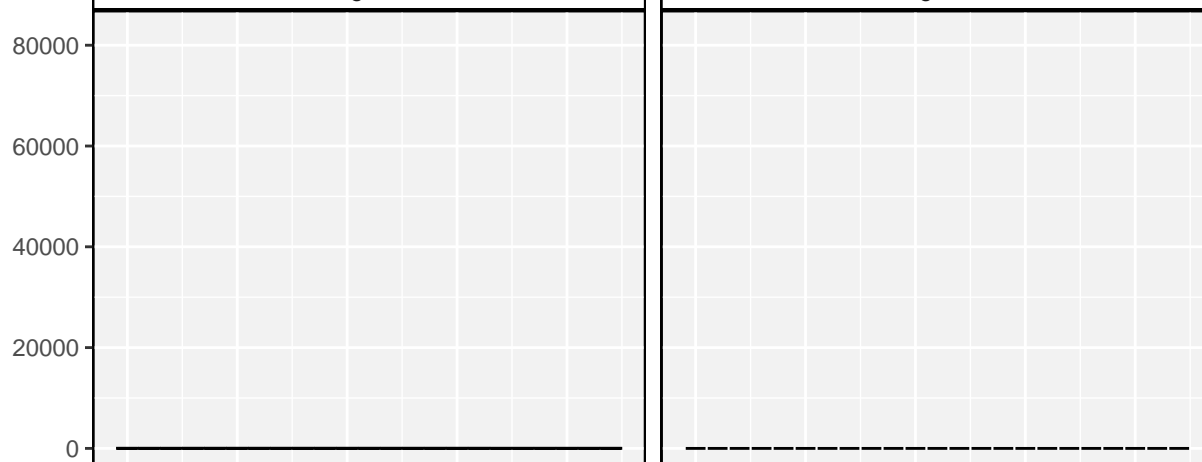

Number of deaths

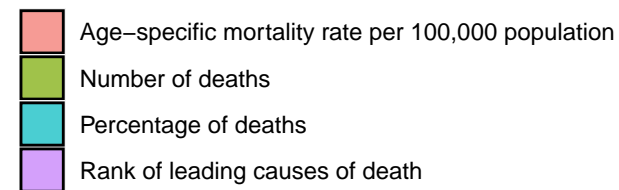

Percentage of deaths

Rank of leading causes of death

Measurement

Value

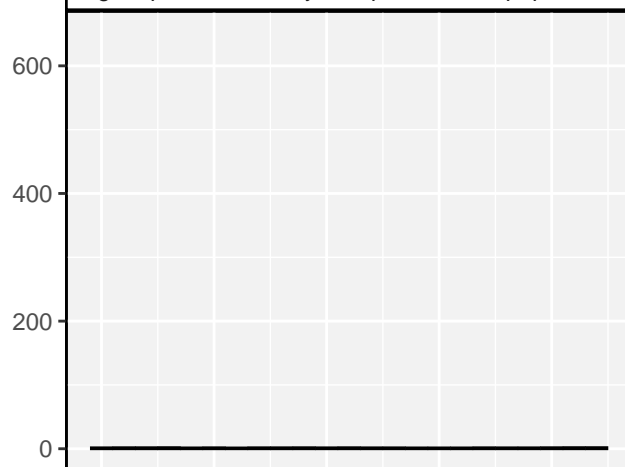

Measurement

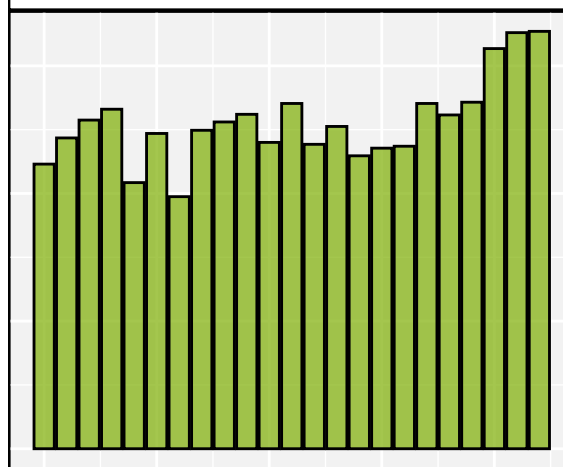

-  Age-specific mortality rate per 100,000 population
-  Number of deaths
-  Percentage of deaths
-  Rank of leading causes of death

Value

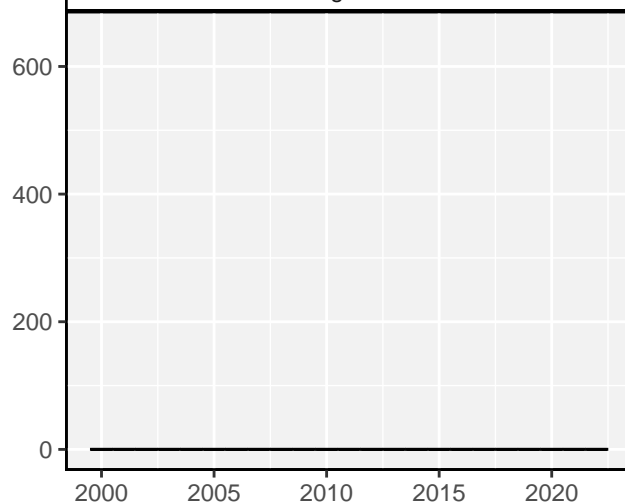

Age-specific mortality rate per 100,000 population

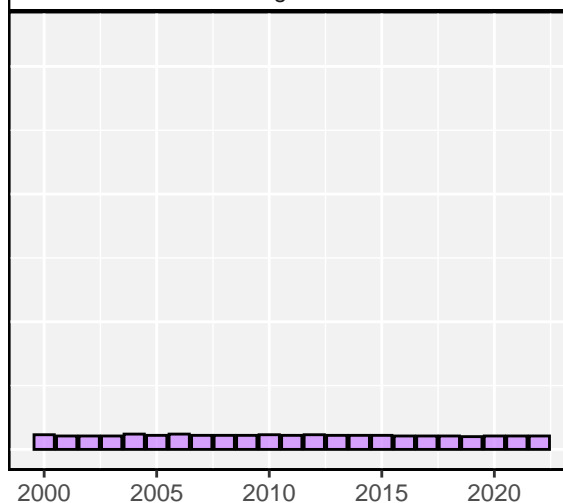

Number of deaths

Percentage of deaths

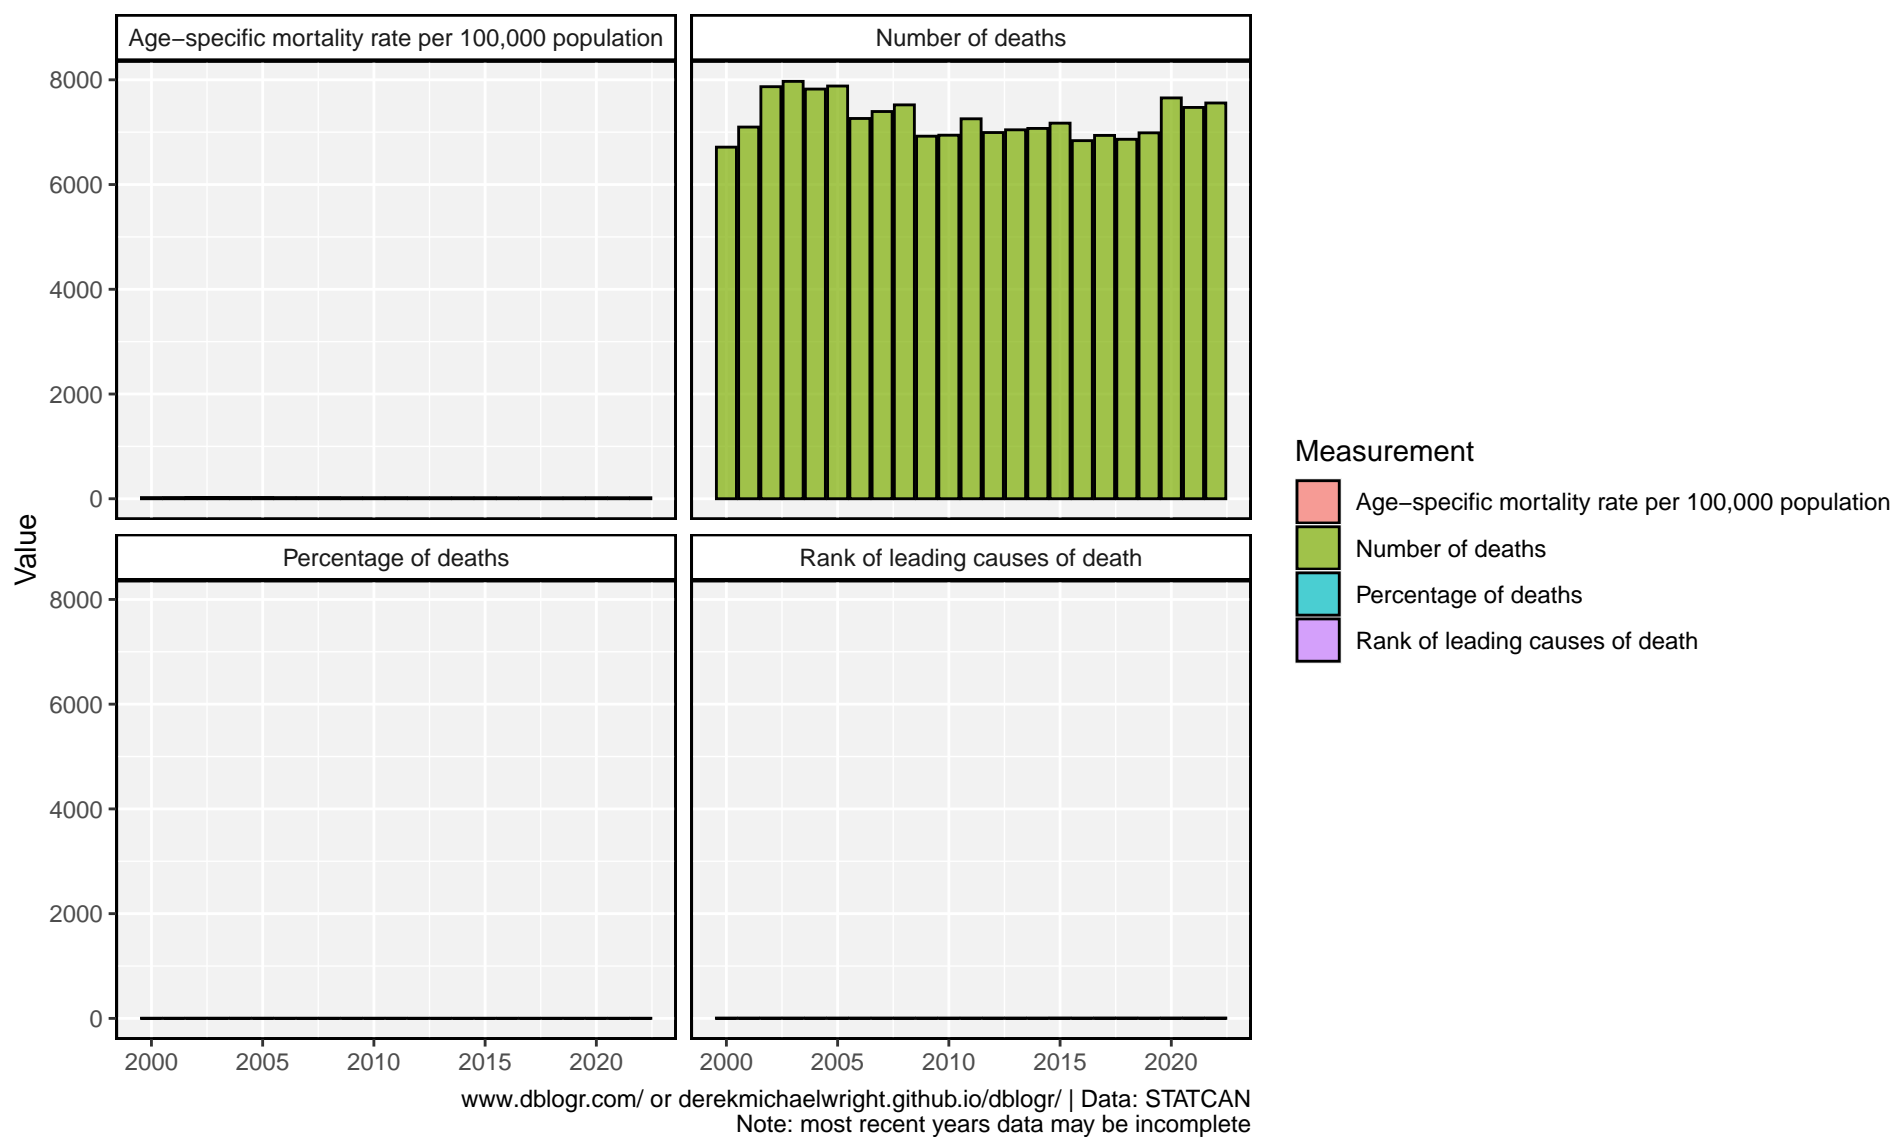

Rank of leading causes of death

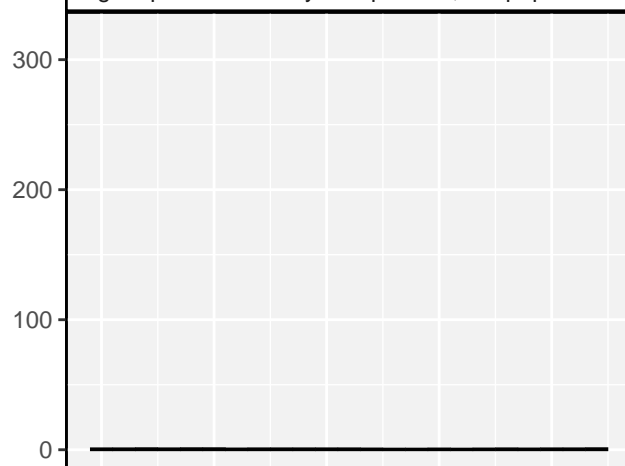

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

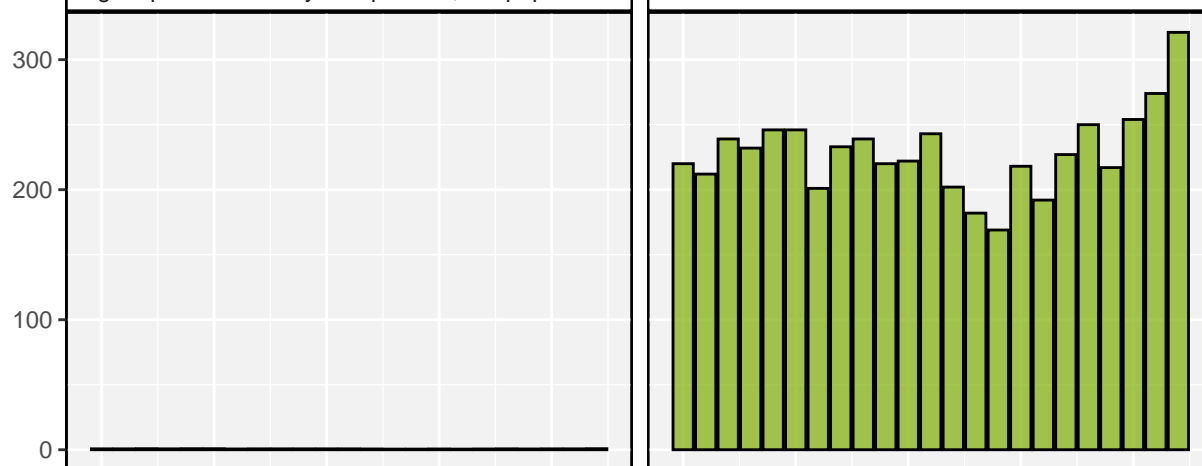

Value

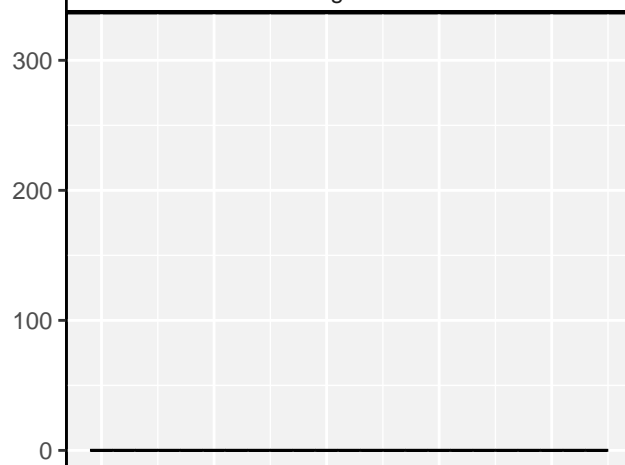

Age-specific mortality rate per 100,000 population

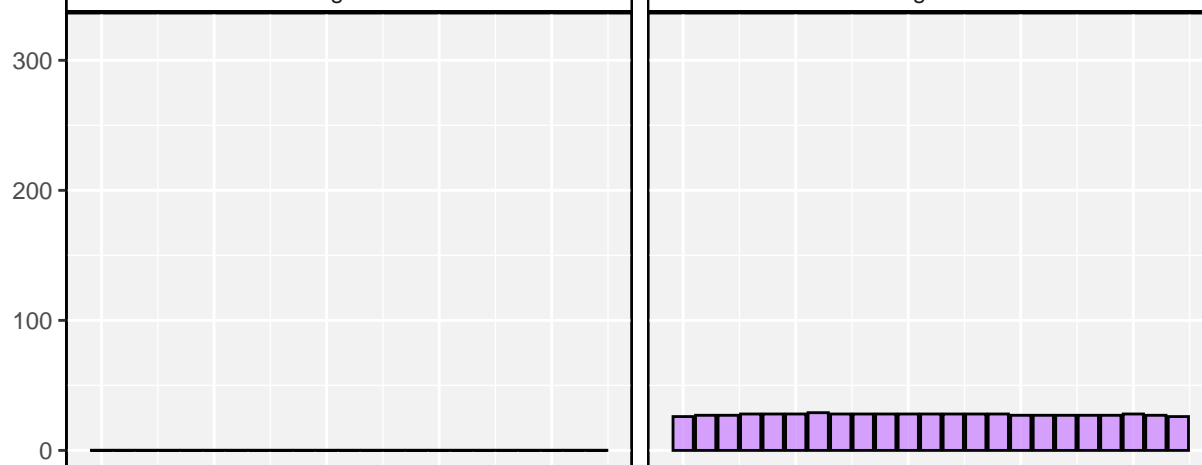

Number of deaths

Percentage of deaths

Rank of leading causes of death

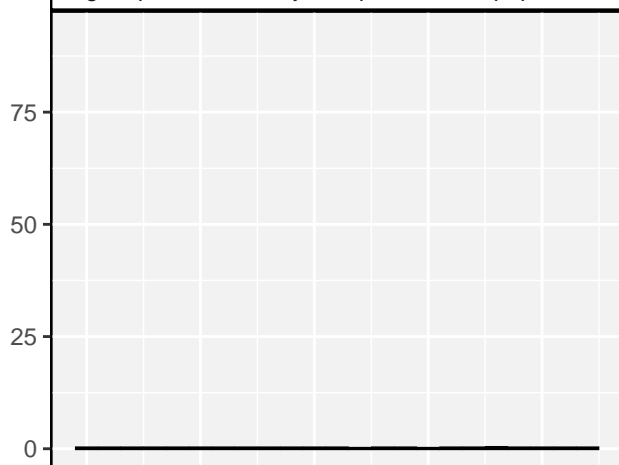

Measurement

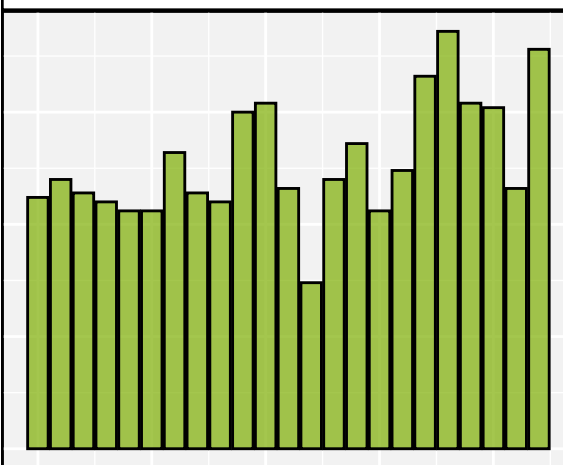

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

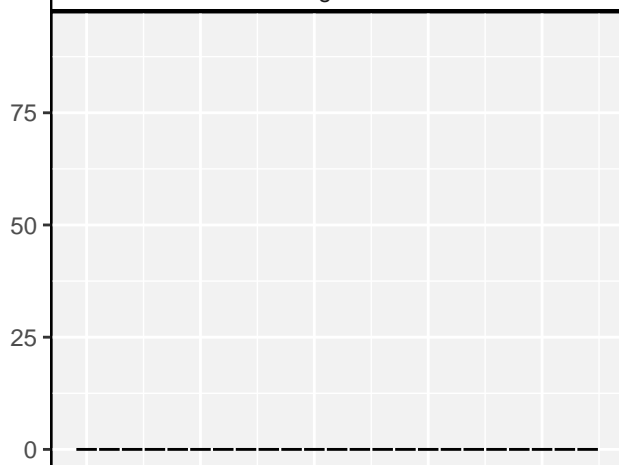

Age-specific mortality rate per 100,000 population

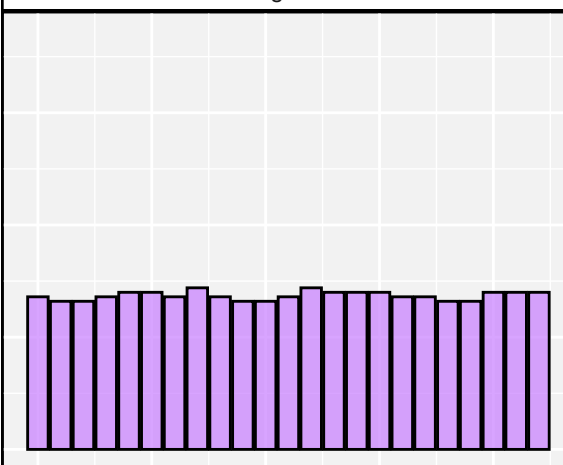

Number of deaths

Percentage of deaths

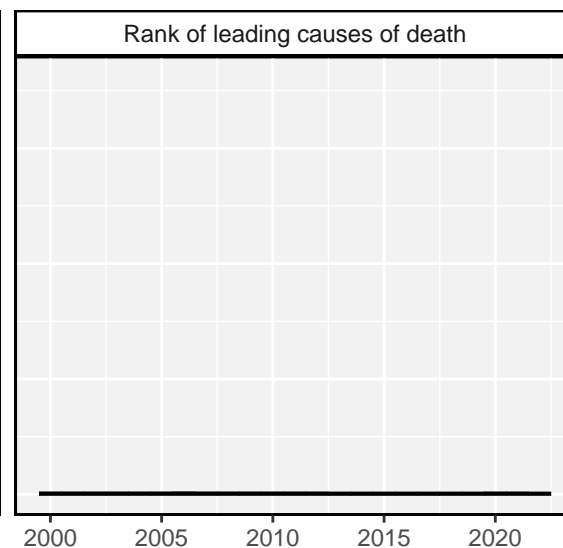

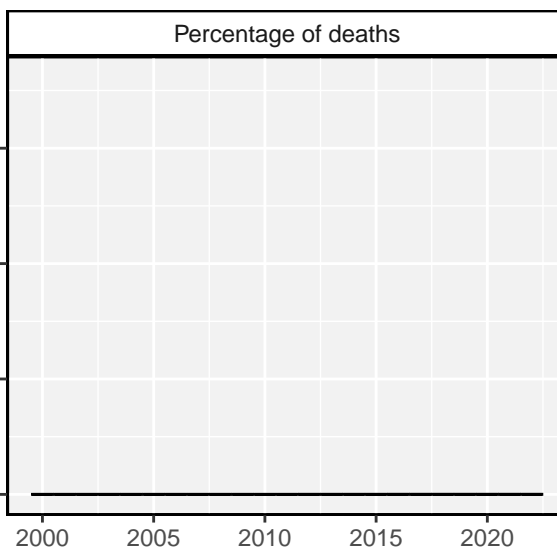

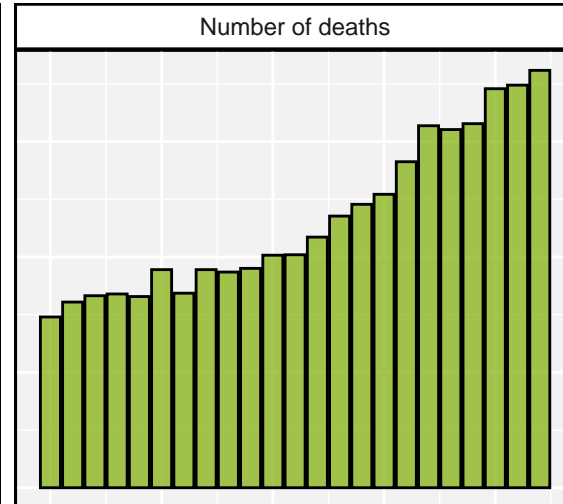

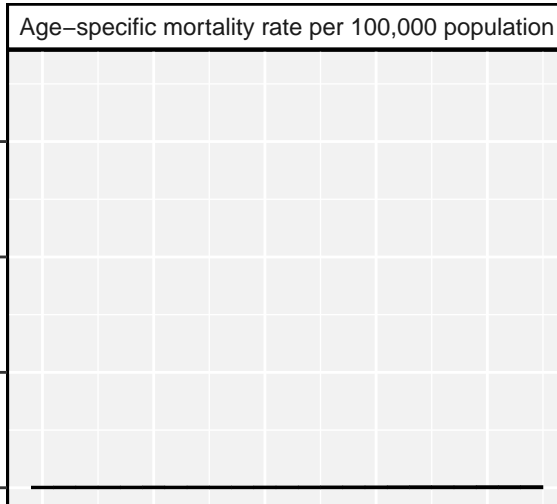

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

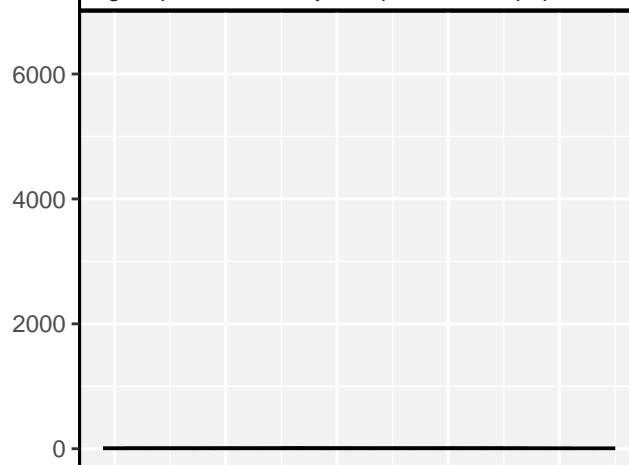

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

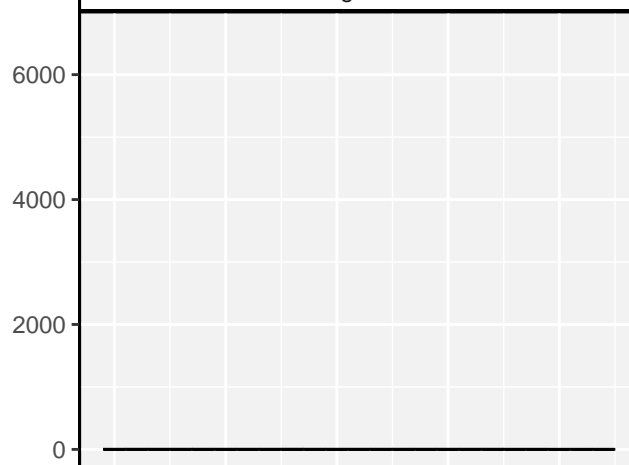

Age-specific mortality rate per 100,000 population

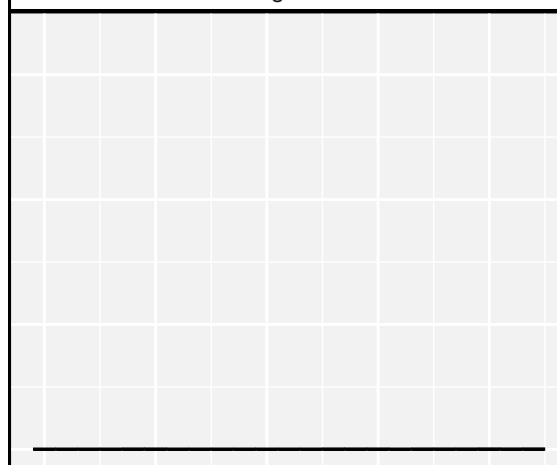

Number of deaths

Percentage of deaths

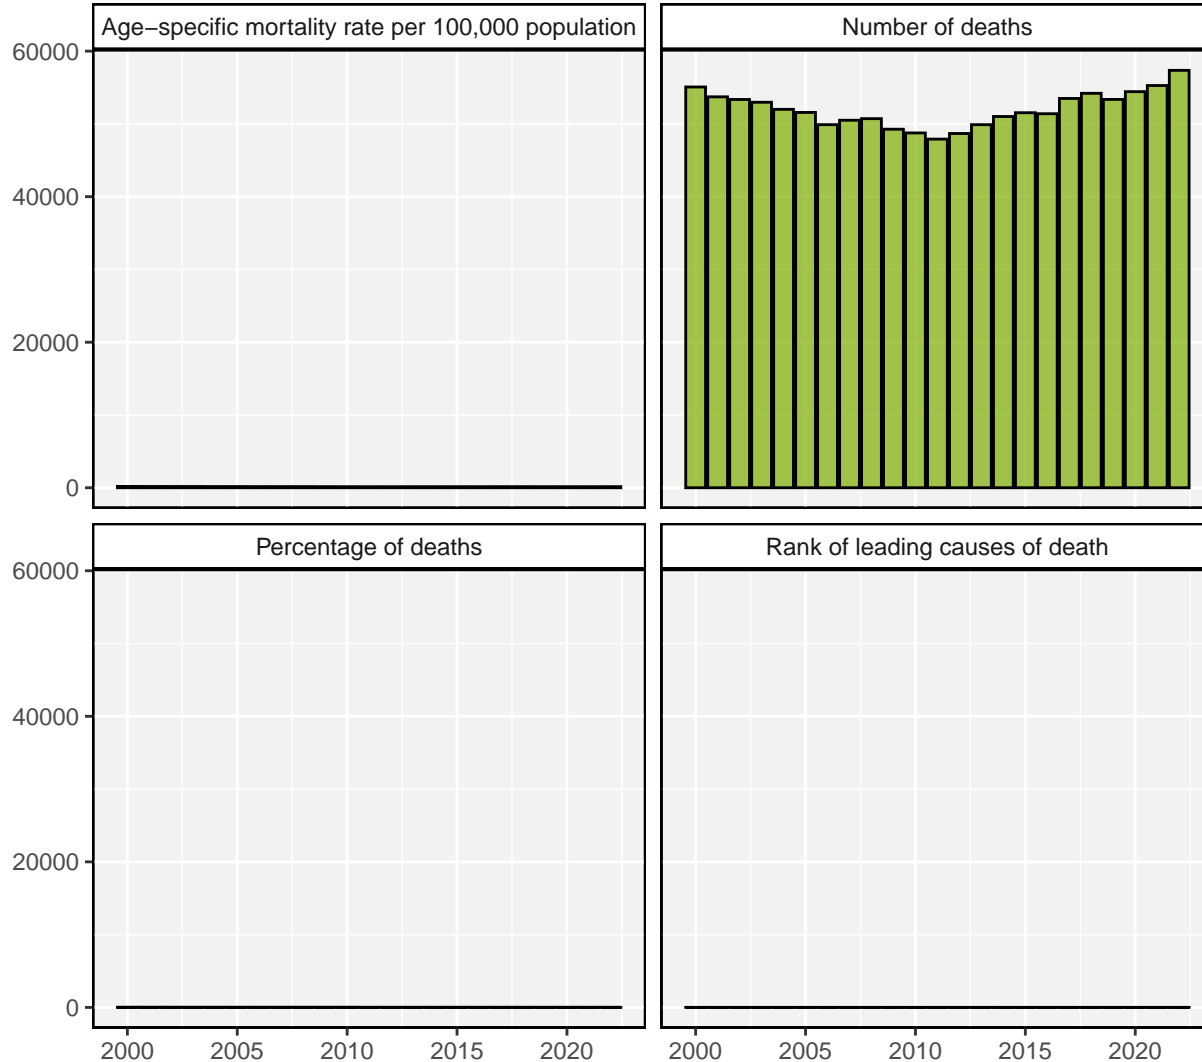

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

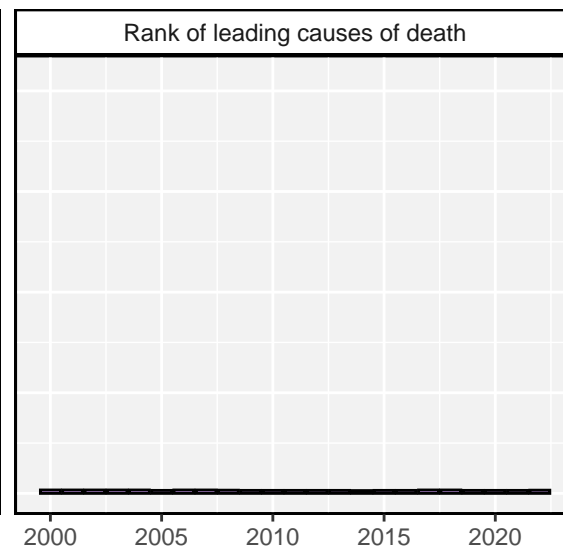

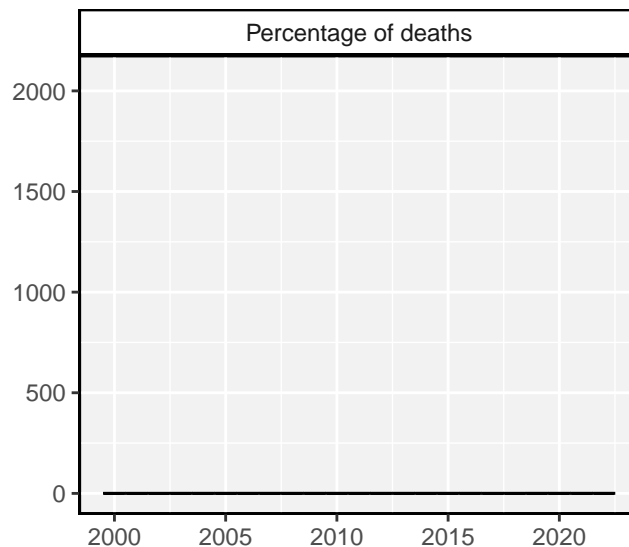

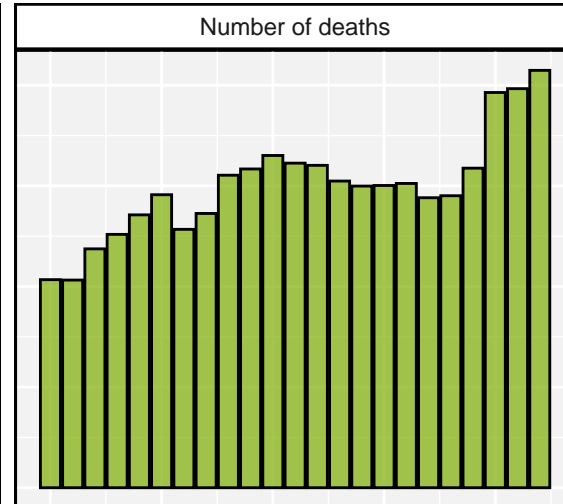

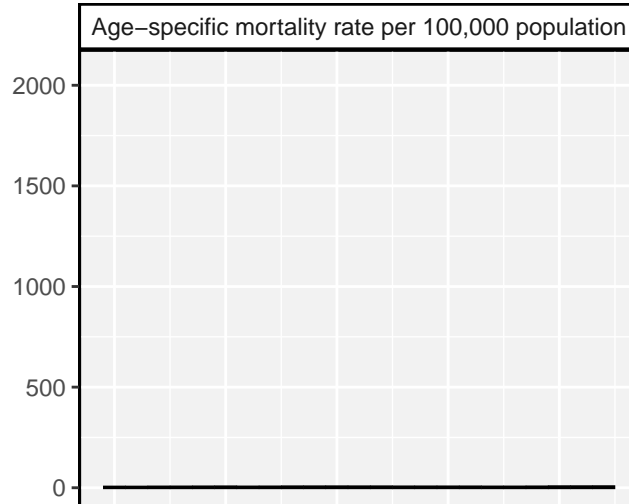

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

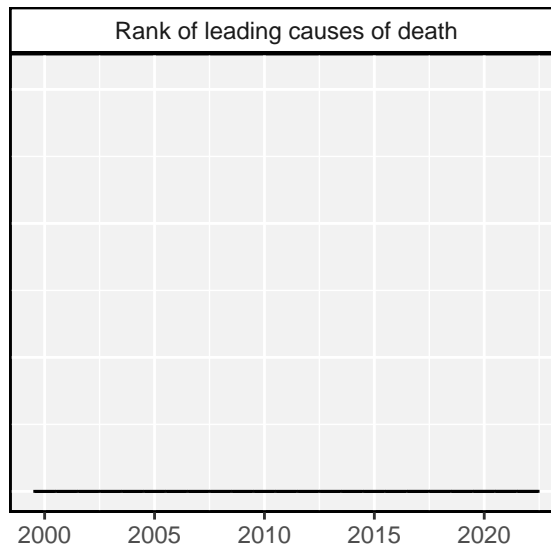

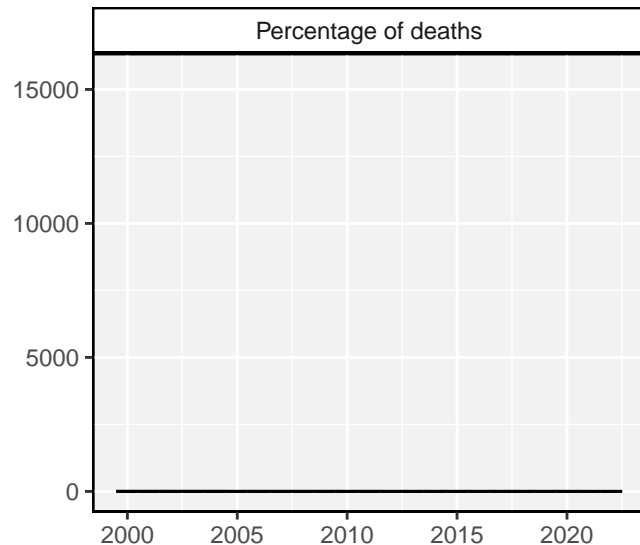

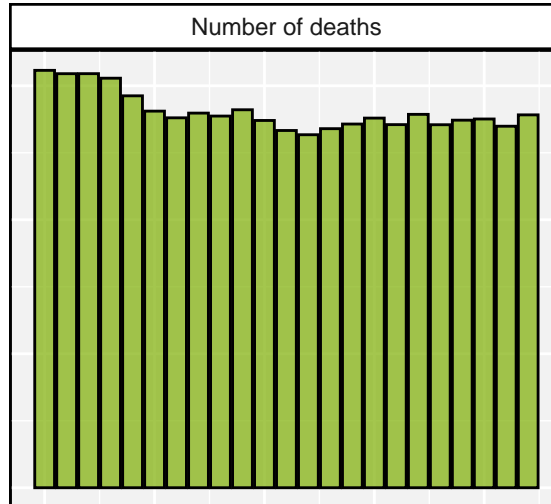

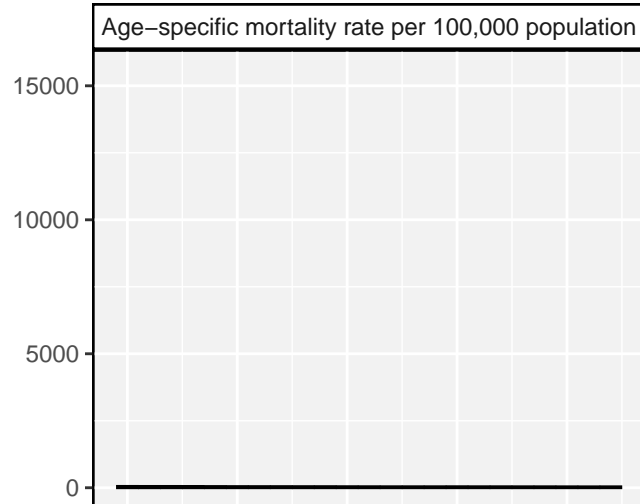

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

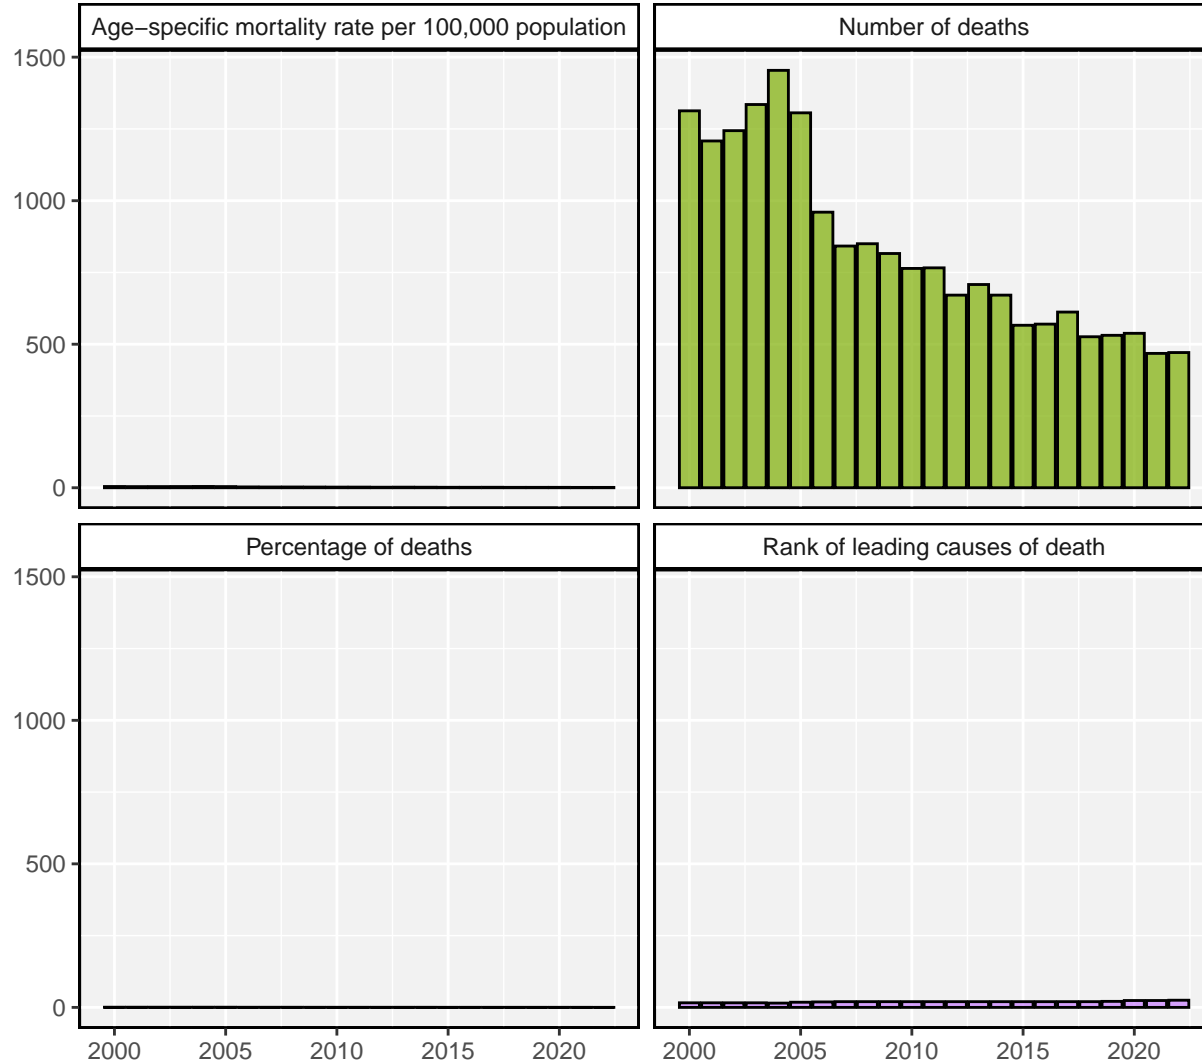

Value

Measurement

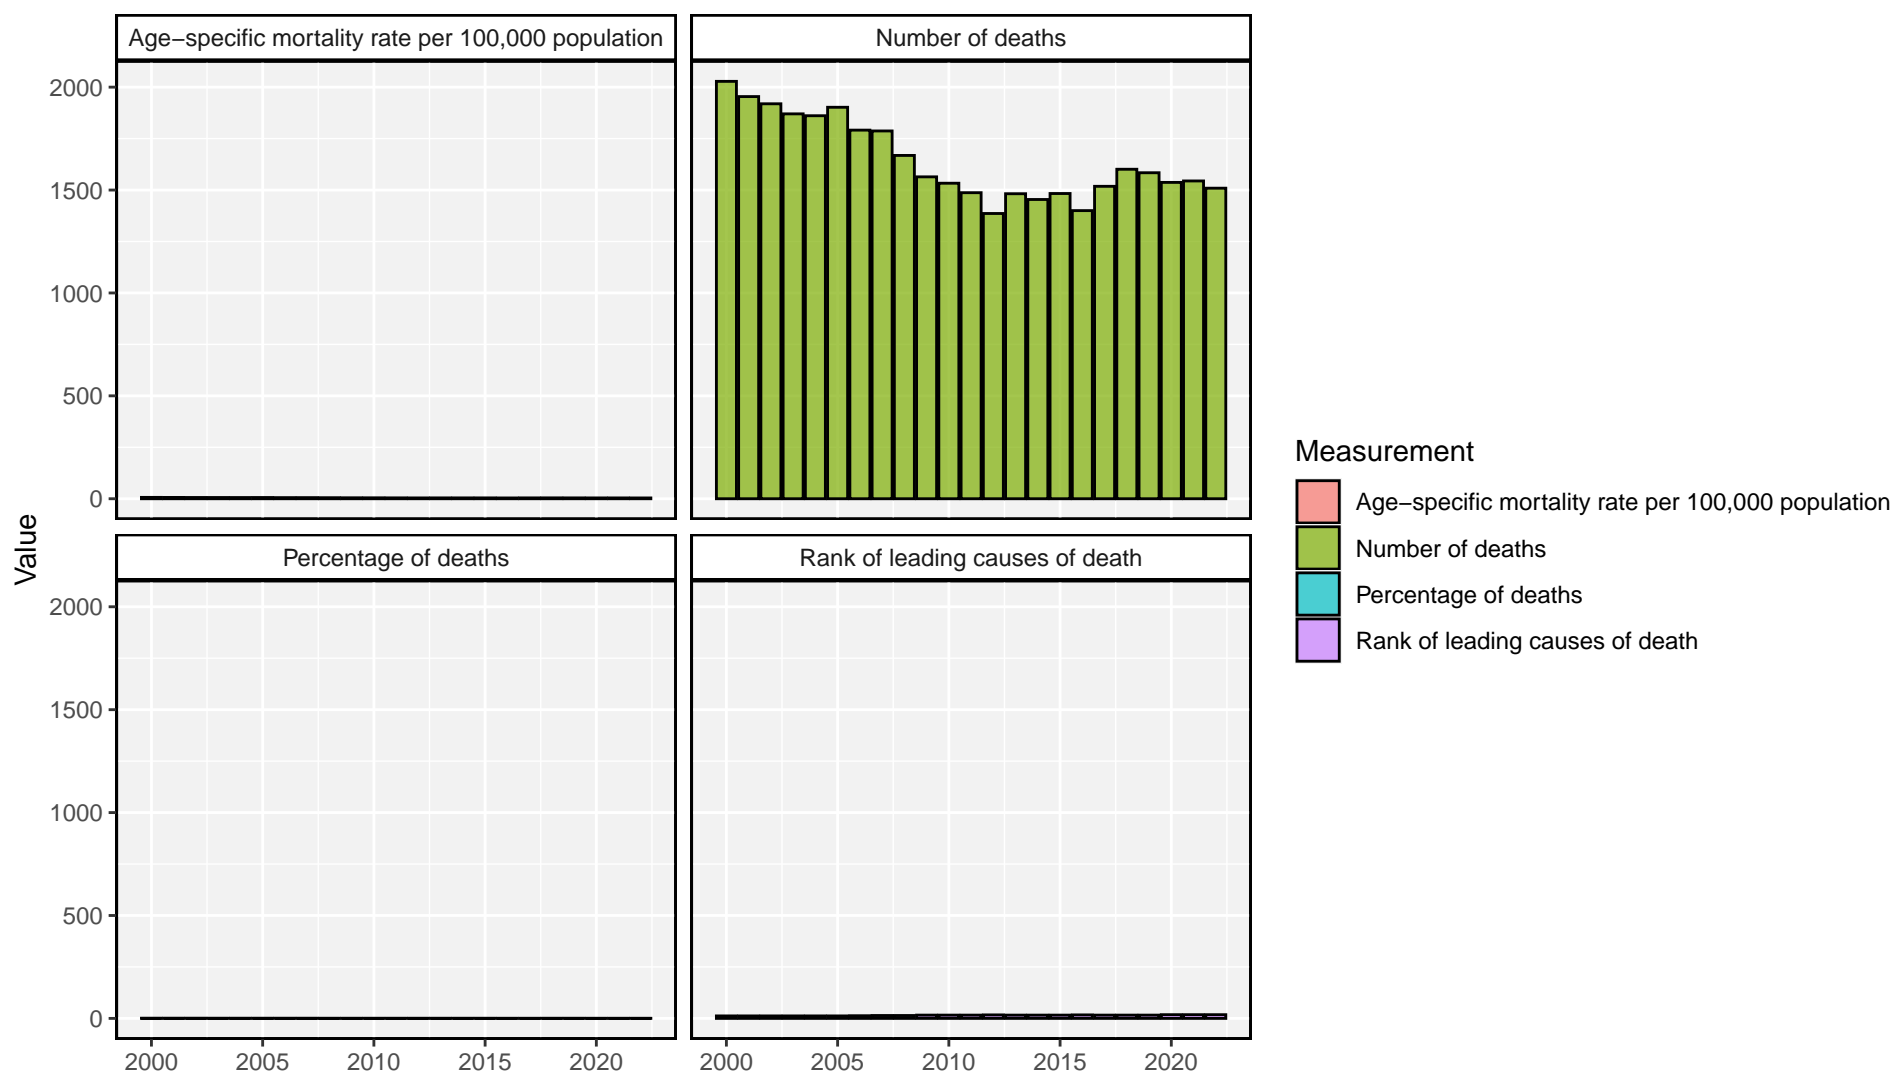

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

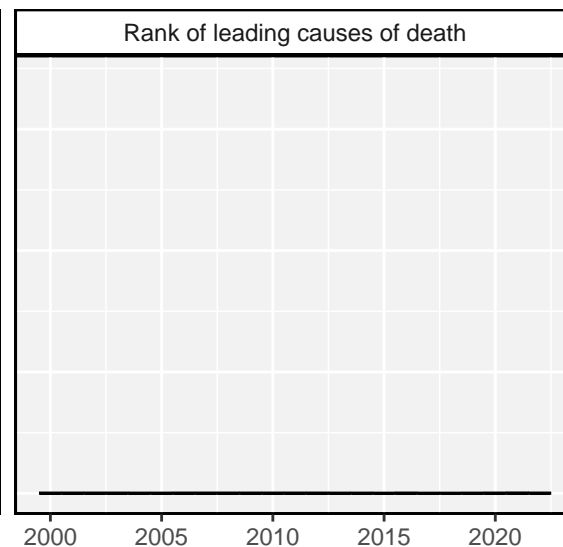

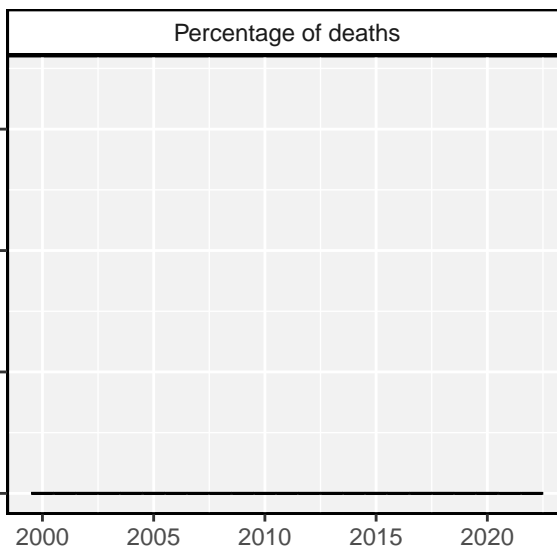

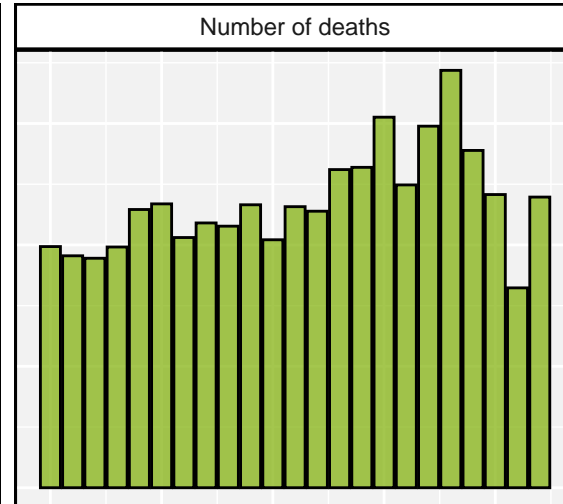

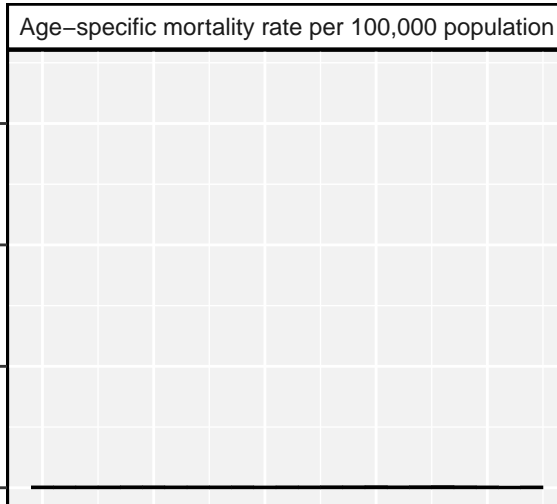

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

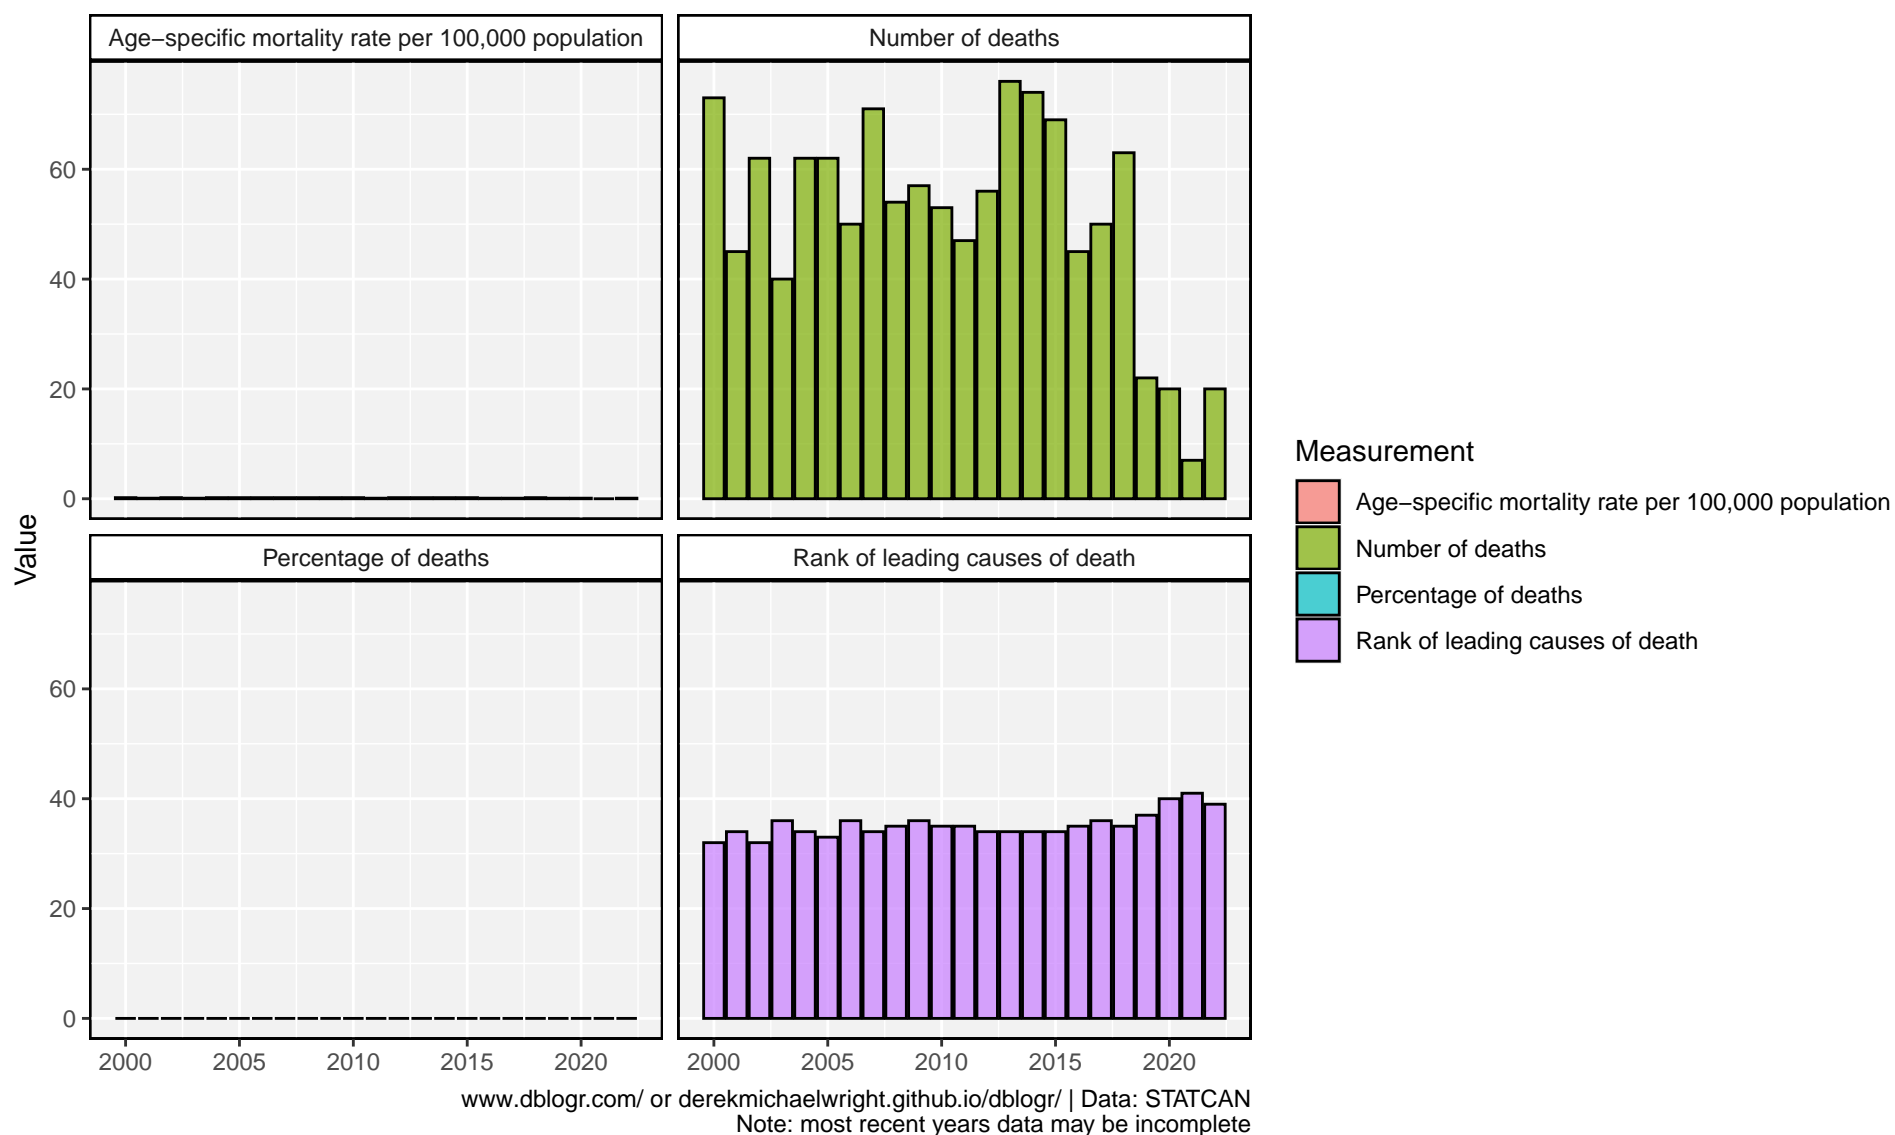

Value

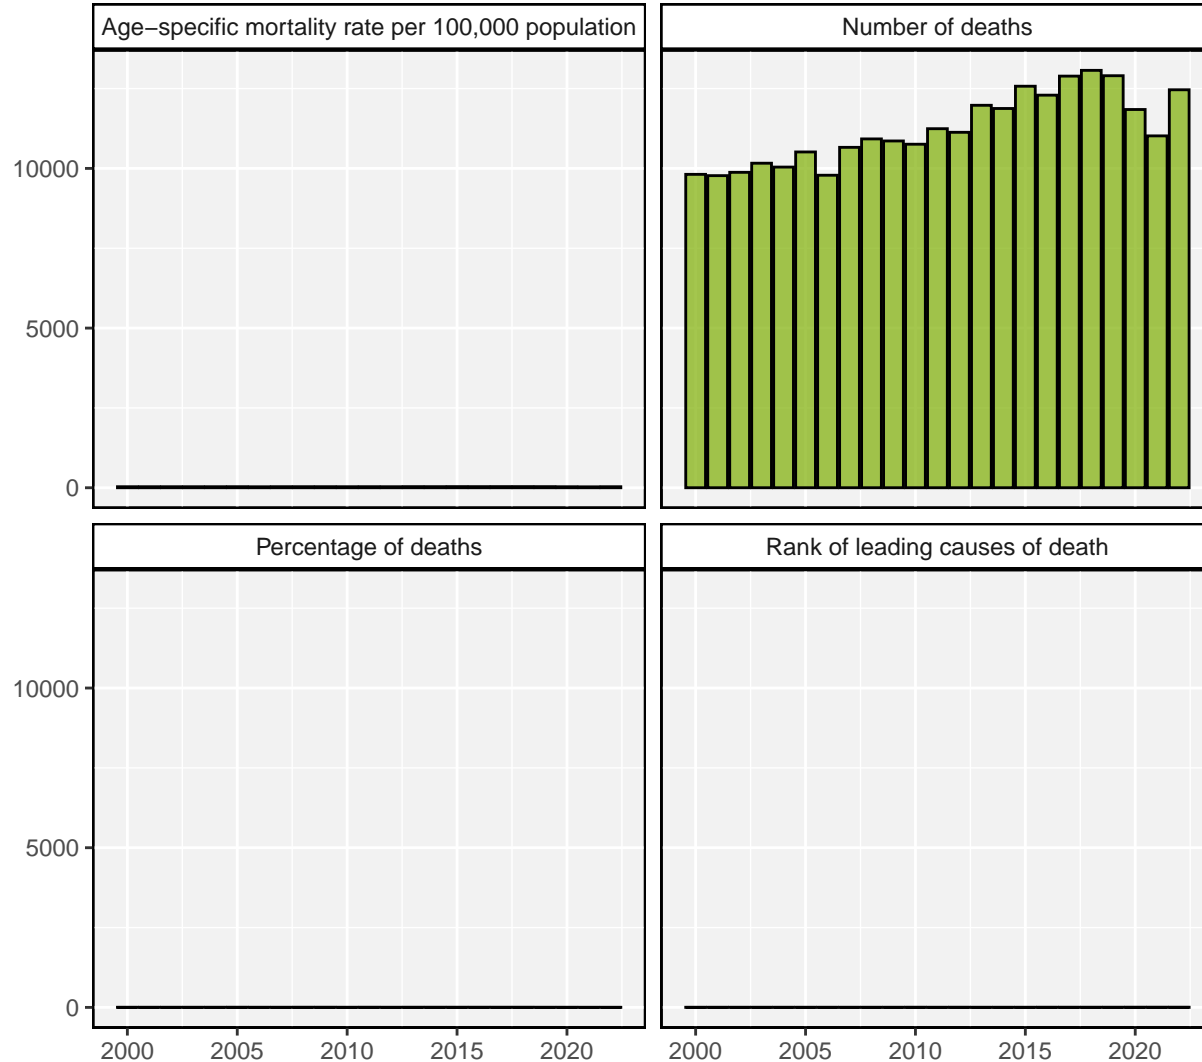

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

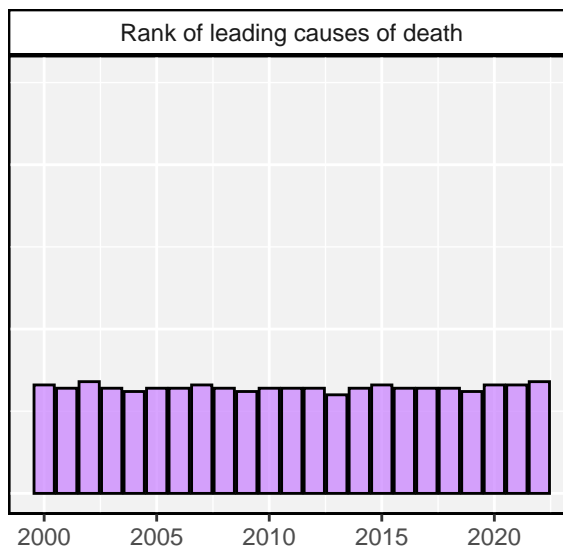

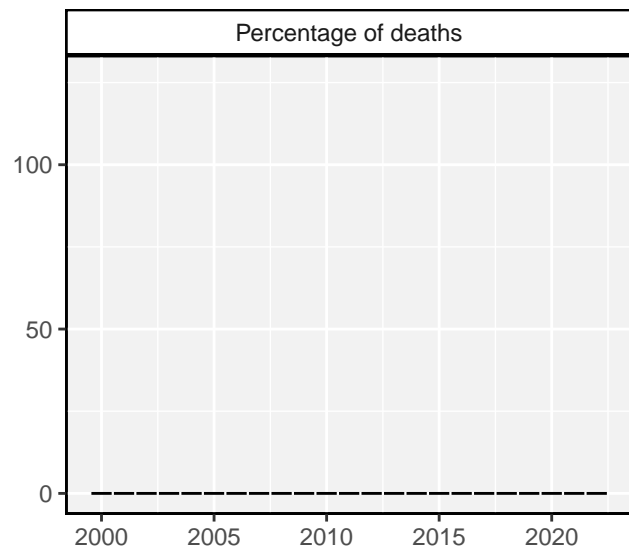

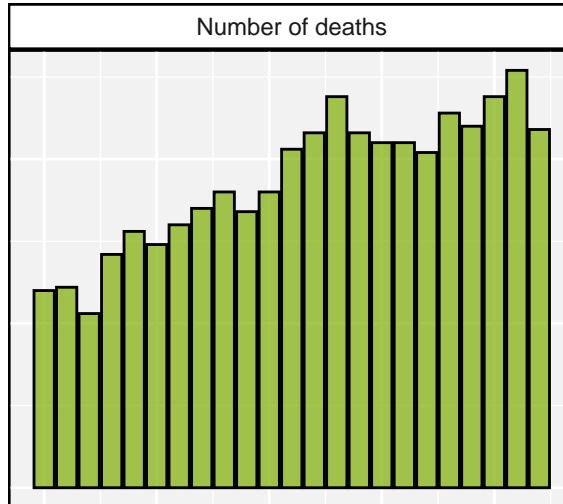

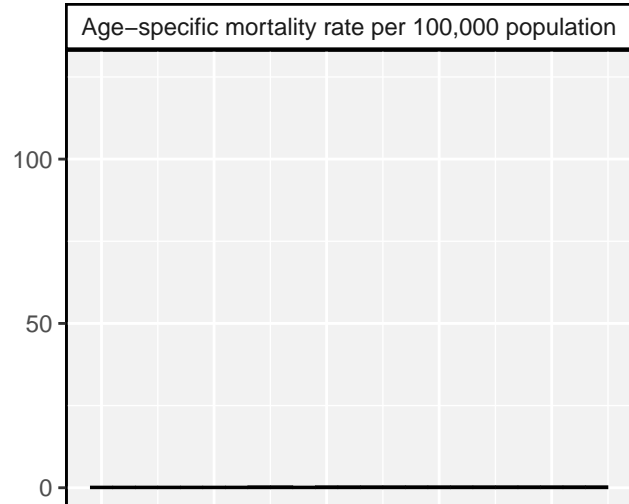

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

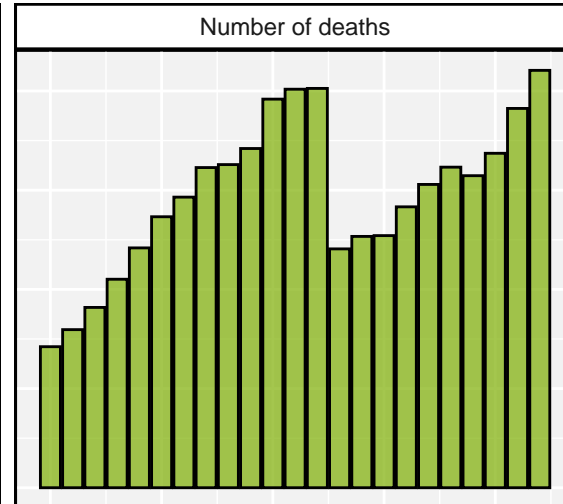

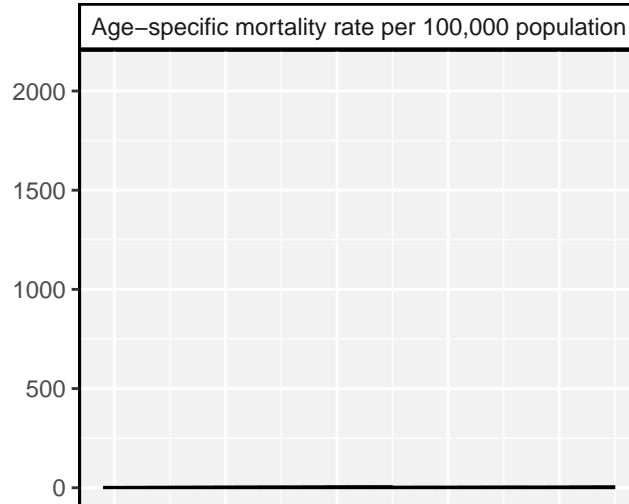

Value

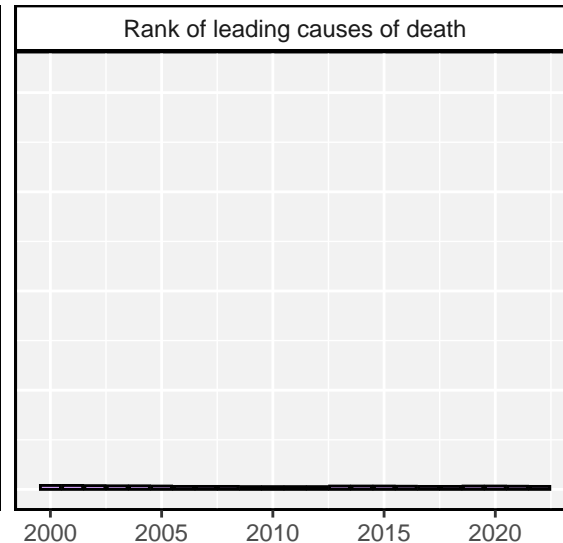

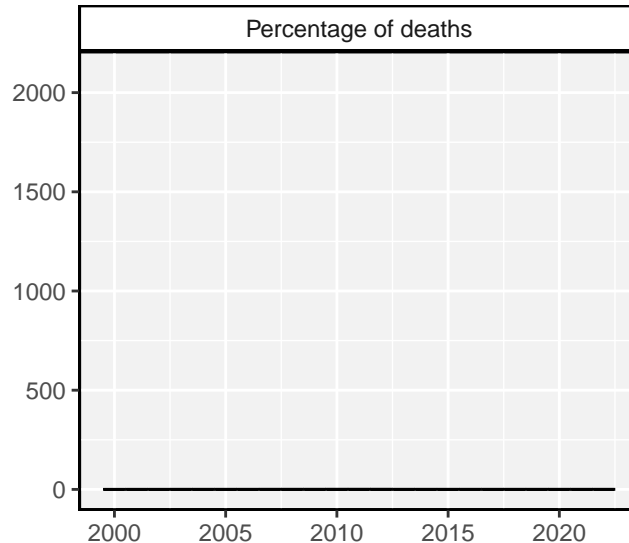

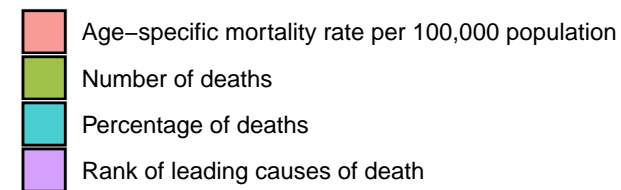

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

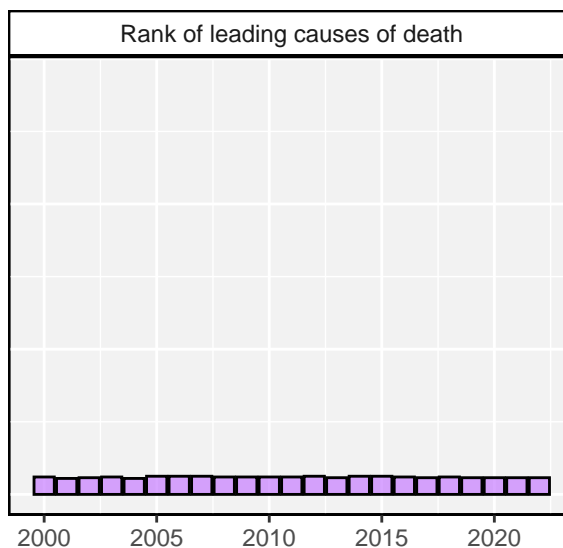

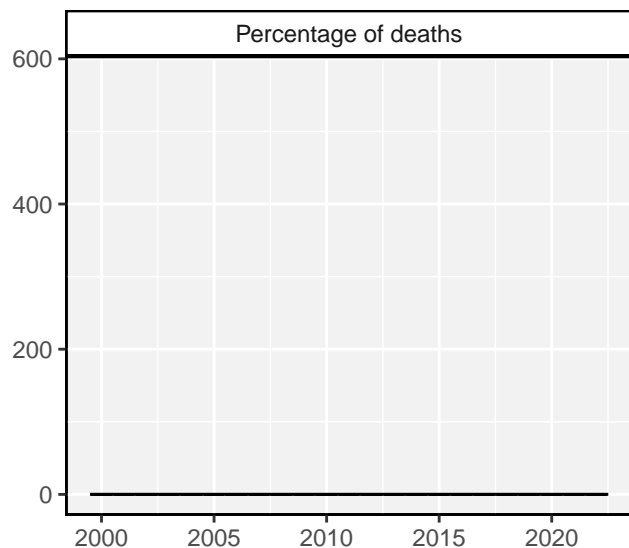

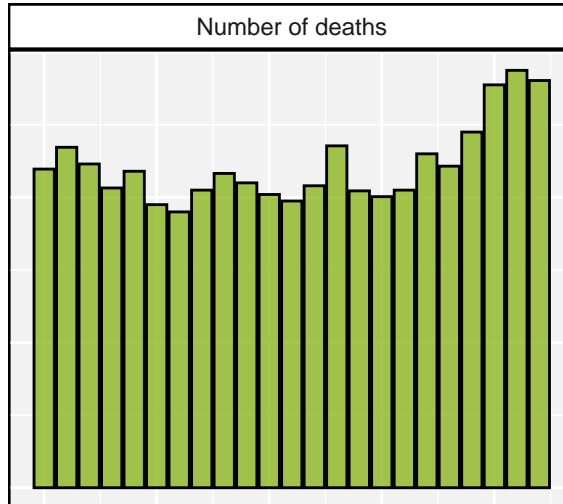

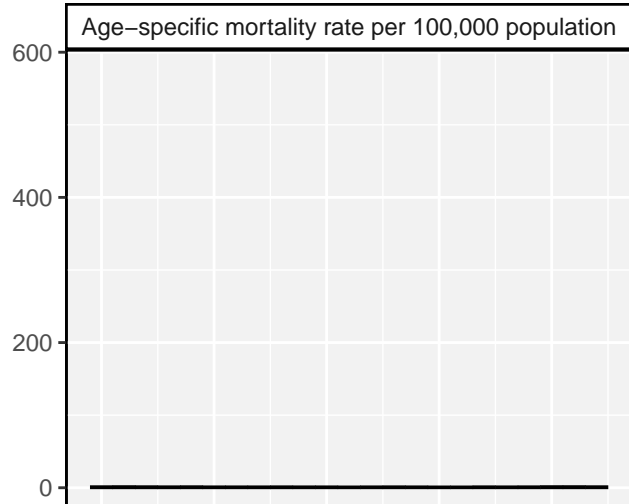

Value

Measurement

Value

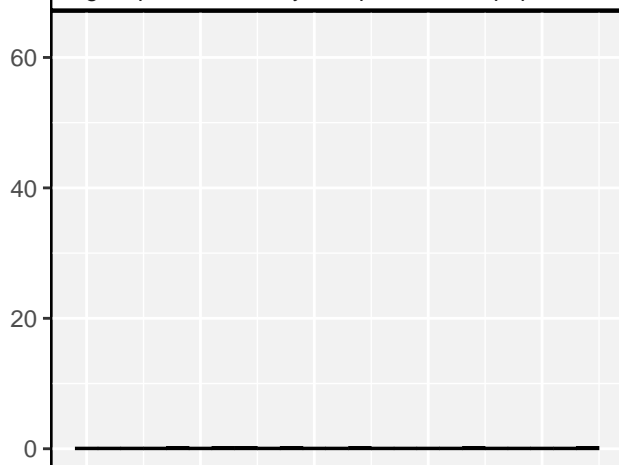

Measurement

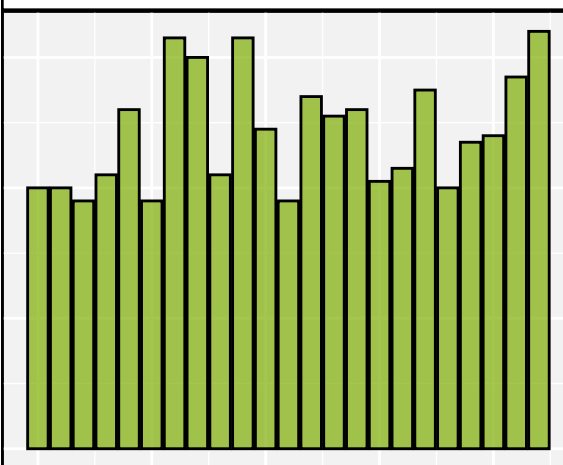

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

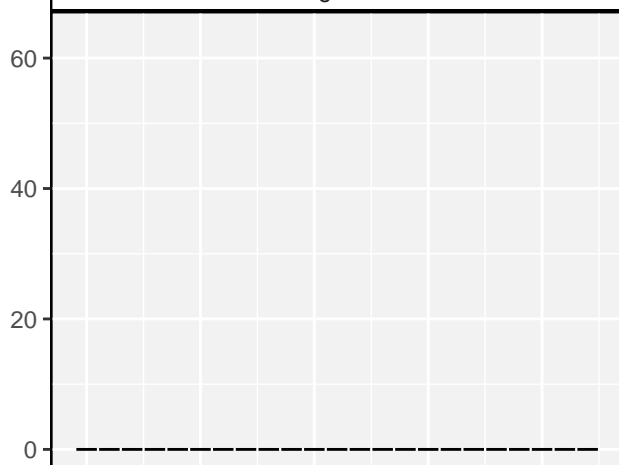

Age-specific mortality rate per 100,000 population

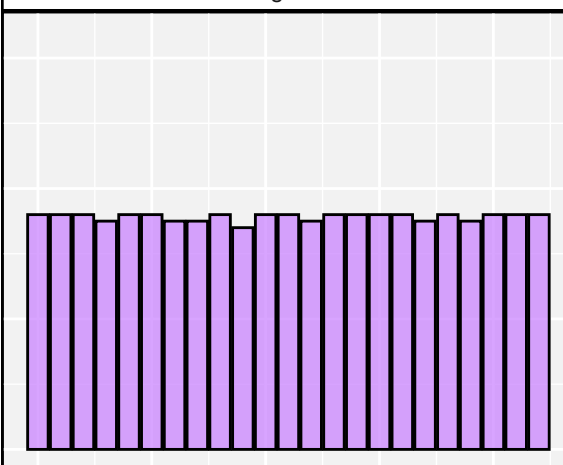

Number of deaths

Percentage of deaths

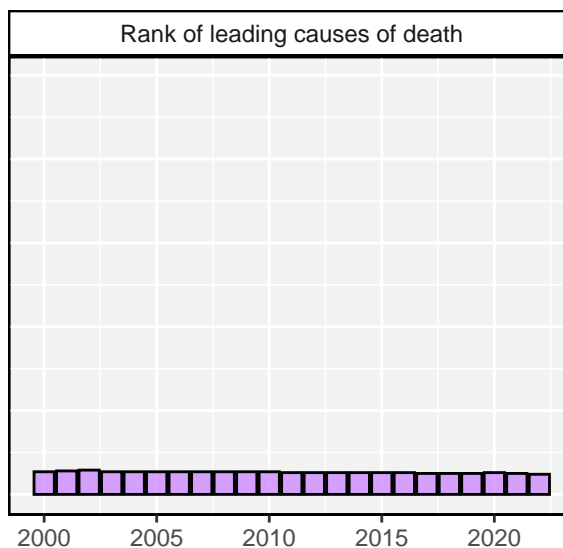

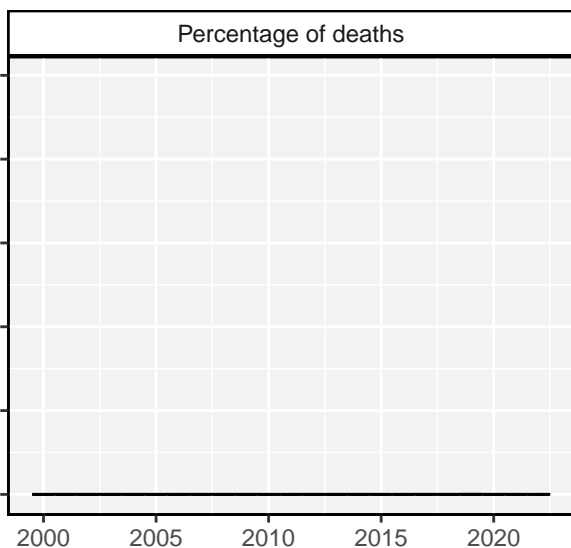

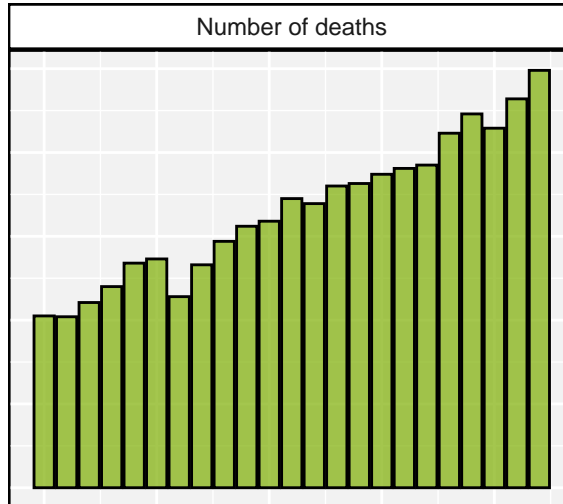

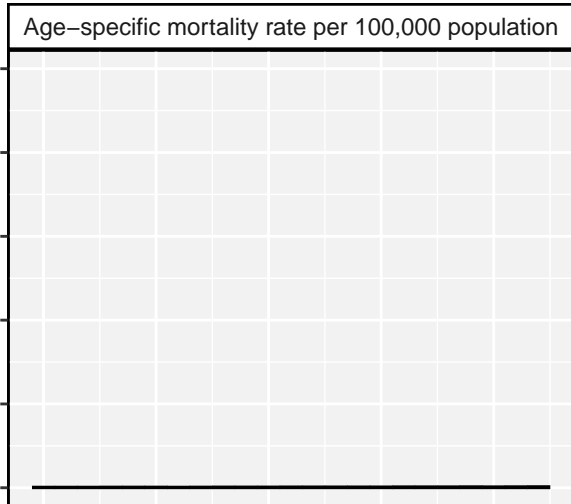

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Age-specific mortality rate per 100,000 population

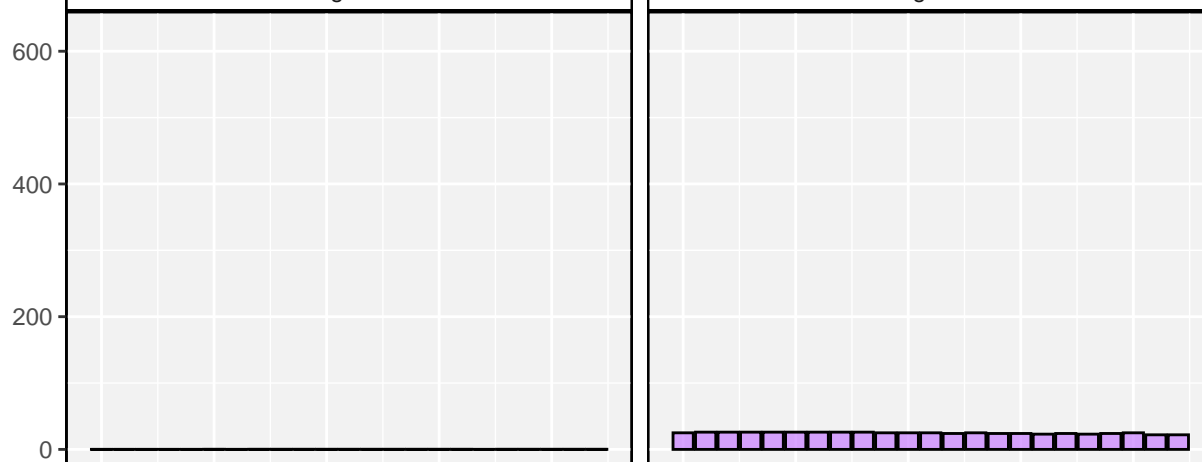

Number of deaths

Percentage of deaths

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Age-specific mortality rate per 100,000 population

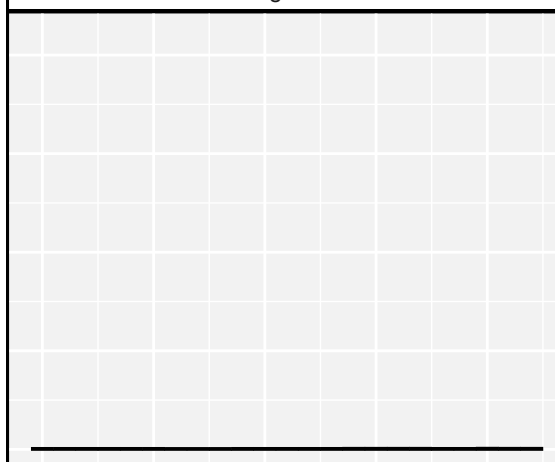

Number of deaths

Percentage of deaths

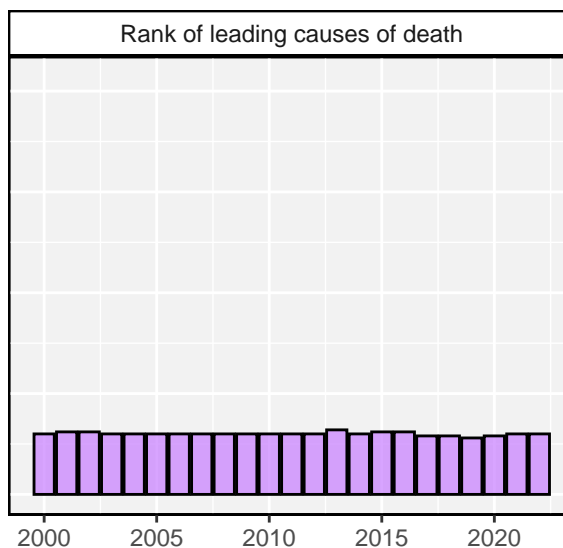

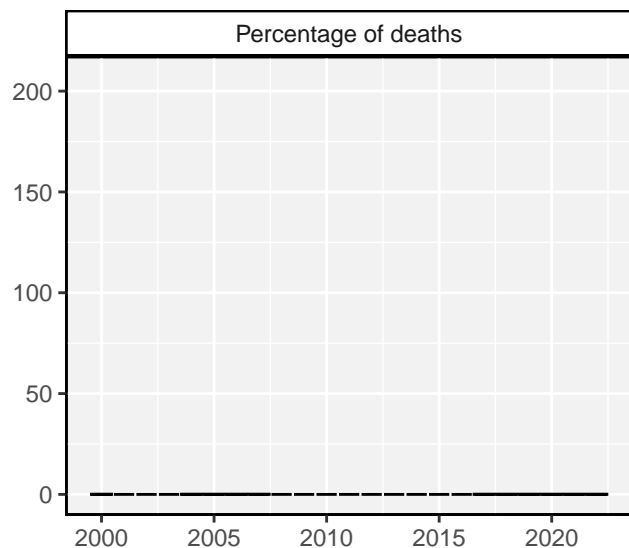

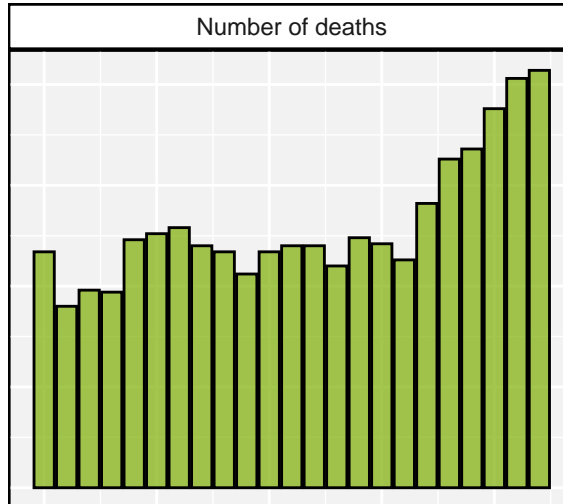

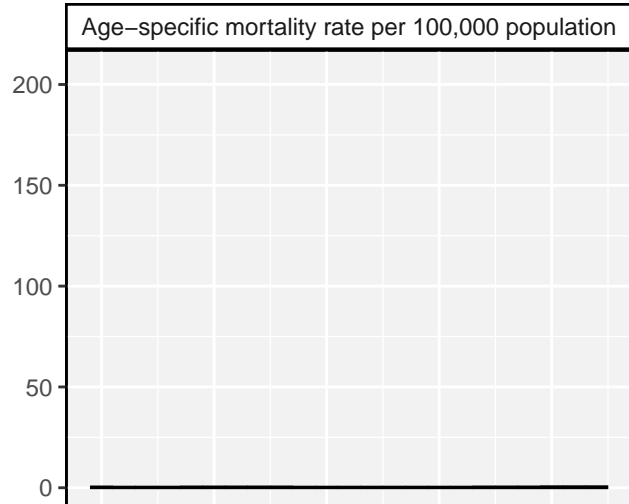

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Measurement

Value

Age-specific mortality rate per 100,000 population

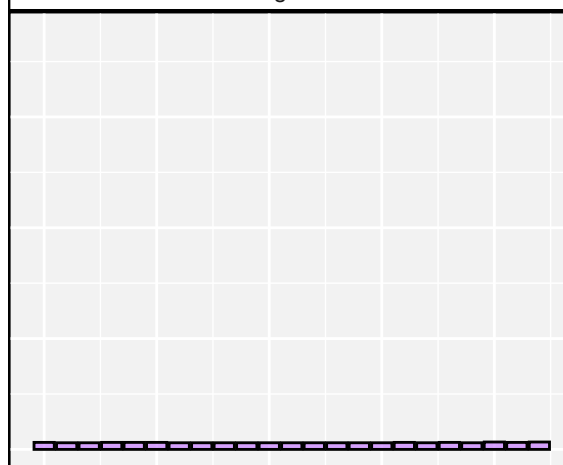

Number of deaths

Percentage of deaths

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Age-specific mortality rate per 100,000 population

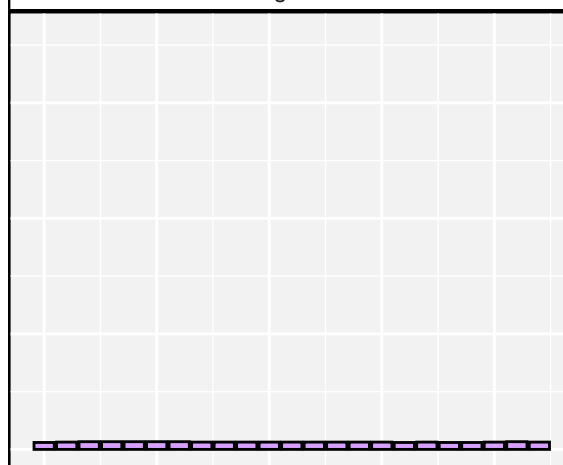

Number of deaths

Percentage of deaths

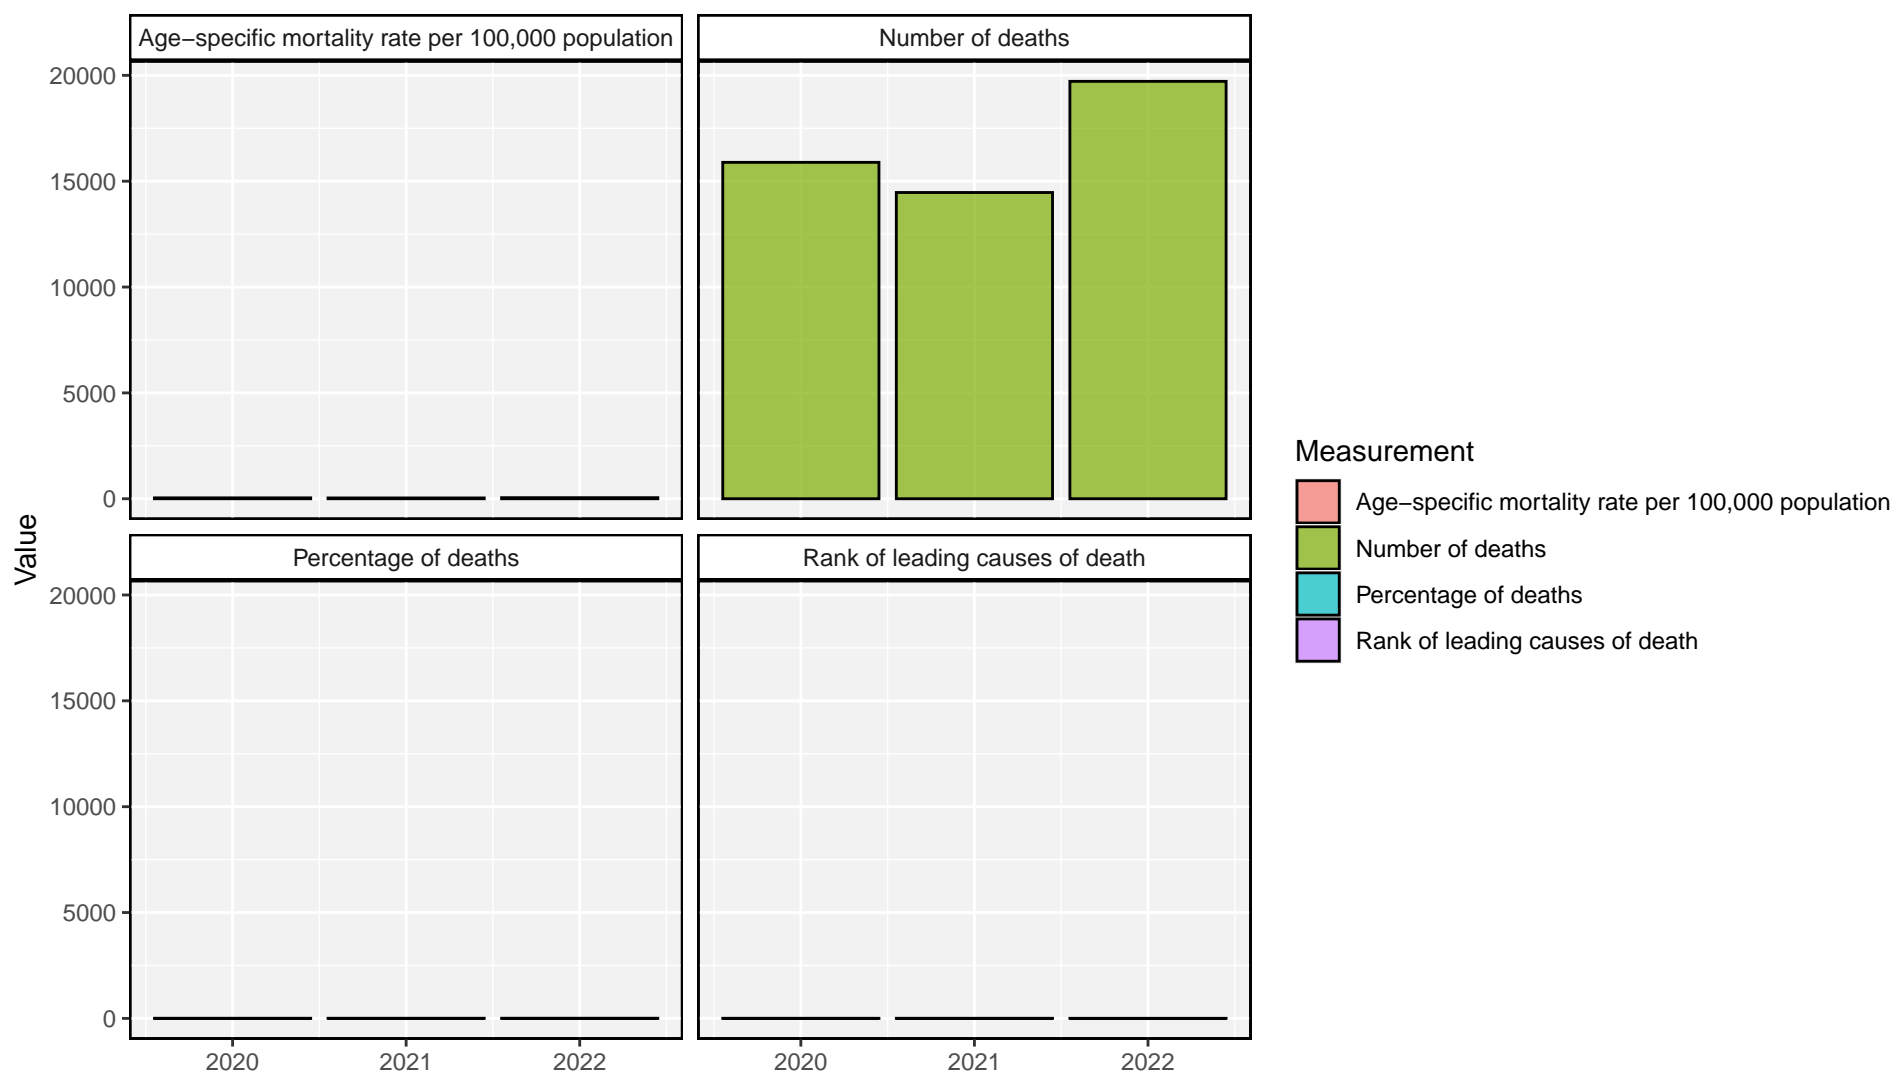

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Age-specific mortality rate per 100,000 population

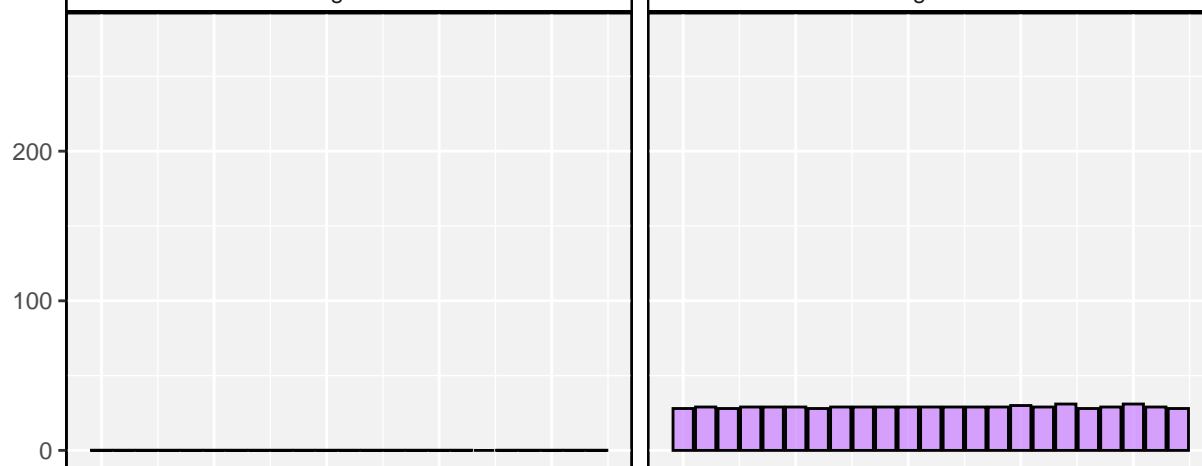

Number of deaths

Percentage of deaths

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death

Value

Age-specific mortality rate per 100,000 population

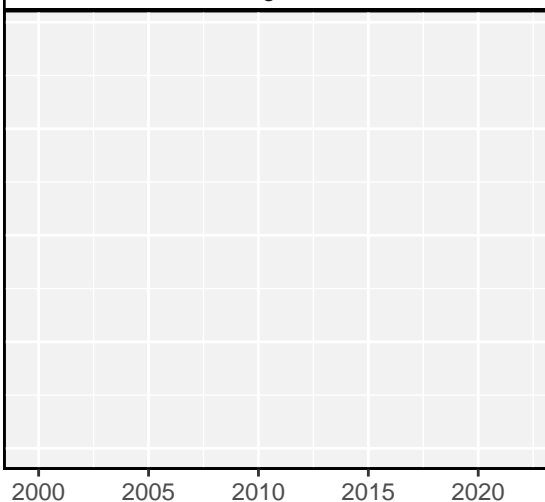

Number of deaths

Percentage of deaths

Rank of leading causes of death

Measurement

- Age-specific mortality rate per 100,000 population
- Number of deaths
- Percentage of deaths
- Rank of leading causes of death
