

DEREK MICHAEL WRIGHT

I graduated with a BSc in Biology from the [University of Regina](#) in 2012, followed by a MSc in Agrobiotechnology from [Justus-Liebig-Universität Gießen](#) (*University of Giessen, Germany*) in 2015. I now work in the Plant Sciences department at the [University of Saskatchewan](#) and have been involved in four research projects ([AGILE](#), [EVOLVES](#), [P2IRC](#) & [ACTIVATE](#)) with lentil (*Lens culinaris*).

I have done extensive work with a lentil diversity panel, NAM and inter-specific RIL populations. I am very fluent in  and have plenty of experience with data analysis such as modeling, PCA, GxE, GWAS and QTL analyses. I have recently been working with data acquisition from UAV and seed imaging systems and can handle data wrangling and visualization of large, high-throughput data sets.

RESEARCH EXPERIENCE & EDUCATION

Current

2015

University of Saskatchewan

Research Assistant

 Saskatoon, Saskatchewan, Canada

- Coordinate field trials
- Seed setup
- Post-harvest processing
- Data collection & analysis
- Presentations
- Collaborations

2015

Cargil Specialty Seeds and Oils

Research Assistant (Internship)

 Aberdeen, Saskatchewan, Canada

- Data collection & analysis
- Pathology (blackleg)

2015

2013

M.Sc. in Agrobiotechnology

University of Giessen

 Giessen, Hesse, Germany

- Biotechnology and Genomics
- Molecular Phytopathology
- Plant Microbe Interactions
- Plant Protection and Bioengineering
- Microbial-Food-Biotechnology
- Applied Statistics and Bioinformatics
- Molecular Plant Breeding
- Molecular Entomology
- Tissue Culturing and Genetic Transformation

2012

2007

B.Sc. Biology

University of Regina

 Regina, Saskatchewan, Canada

- Limnology
- Environmental Microbiology
- Global Biogeochemistry
- Stable Isotope Ecology
- Vertebrate Animal Biology
- Advanced Plant Physiology
- Molecular Genetics
- Bacterial Genetics

Skills

-  Photography
-  Biology & Genomics
-  Data Analytics & Visualization
-  The R Project

PACKAGES

gwaspr: an  package for plotting GWAS results

<https://derekmichaelwright.github.io/gwaspr/>

`devtools::install_github("derekmichaelwright/gwaspr")`

agData: an  package containing agricultural data sets

<https://derekmichaelwright.github.io/agData/>

`devtools::install_github("derekmichaelwright/agData")`

PUBLICATIONS

2025

Disecting lentil crop growth across multi-environment trials using unoccupied aerial vehicles and genome-wide association studies

The Plant Phenome Journal. 8(1): e70040.

[github](#) [Script](#)

2025

Breeding potential of cultivated lentil for increased protein and amino acid concentrations in the Northern Great Plains

Crop Science. 65(3): e70085.

[github](#) [Script](#)

2024

Grazing preferences of three species of amoebae on cyanobacteria and green algae

The Journal of Eukaryotic Microbiology. e13018: 1-14.

2023

Mass Spectrometry-Based Untargeted Metabolomics Reveals the Importance of Glycosylated Flavones in Patterned Lentil Seed Coats

Journal of Agricultural and Food Chemistry. 71(7): 3541–3549.

2022

Focusing the GWAS *Lens* on days to flower using latent variable phenotypes derived from global multi-environment trials

The Plant Genome. 16(1): e20269.

[github](#) [Script](#)

2021

Strategic Identification of New Genetic Diversity to Expand Lentil (*Lens culinaris* Medik.) Production (Using Nepal as an Example)

Agronomy. 11(10): 1933.

[github](#) [Script](#)

2020

Genomic selection for lentil breeding: Empirical evidence

The Plant Genome. 13(1):e20002.

2020

Understanding photothermal interactions can help expand production range and increase genetic diversity of lentil (*Lens culinaris* Medik.)

Plants, People, Planet. 3(2): 171-181.

[github](#) [Script](#)

2015

Influence of heterozygosity on nitrogen use efficiency in hybrid and purebred lines of *Brassica napus* (L.)

University of Giessen MSc Thesis

[Script](#)

Investigating seed size, shape, color, and patterning in a lentil using high throughput imaging

unpublished
